Applicants’ Representations

1. On May 3, 1999, the Commission issued an order (“May 1999 Order”)⁴ exempting certain transactions of Applicants from the provisions of Sections 2(a)(32), 22(c) and 27(i)(2)(A) of the Act and Rule 22c-1 thereunder. The May 1999 Order specifically permits the recapture, under specified circumstances, of certain 3% Credits applied to contributions made under Contracts or Future Contracts as defined in the application for the May 1999 Order.⁵ Specifically, the May 1999 Order permits recapture of Credits if the Contract is returned during the free look period, or if contributions are made within 3 years of annuitization.

2. On July 28, 1999, the Commission issued an order of exemption amending the May 1999 Order (“July 1999 Order”)⁶ to permit the recapture of Credits of up to 5% under Contracts and Future Contracts under the same specified circumstances.

3. On May 21, 2001, the Commission issued an order of exemption (“May 2001 Order”) amending the July 1999 Order (together with the May 1999 Order and the July 1999 Order, the “Existing Order”)⁷ to permit the recapture of Credits of up to 6% under Contracts and Future Contracts under the same and certain additional circumstances. The additional circumstances include the recapture of Excess Credits when a Contract owner’s

Net First Year Contributions are lower than Total First Year Contributions, and when a Contract owner fails to fulfill the conditions of a Letter of Intent, all as described in the application for the May 2001 Order.⁸

4. Applicants believe that the Contracts and Amended Contracts are substantially similar in all material respects relevant to the Existing Order, and that the Amended Contracts would constitute Future Contracts covered by the Existing Order. Nevertheless, in view of certain differences from the Contracts reflected in the Amended Contracts, Applicants filed an Application to avoid any uncertainty regarding the availability of such relief with respect to the recapture of Credits of up to 6% under the Amended Contracts under the same circumstances described in the Prior Applications,⁹ and under one additional circumstance described in paragraph 8 of Applicants’ Representations, below.

5. The respective Accounts will fund the variable benefits available under the Amended Contracts. Units of interest in Accounts under the Amended Contracts they fund will be registered under the Securities Act of 1933 (the “1933 Act”). Equitable may issue Future Contracts through the Accounts. Equitable also may issue Future Contracts through Future Accounts. That portion of the respective assets of the Accounts that is equal to the reserves and other Amended Contract liabilities with respect to the Accounts is not chargeable with liabilities arising out of any other business of Equitable Life or EOC, as the case may be. Any income, gains or losses, realized or unrealized, from assets allocated to the Accounts are, in accordance with the respective Accounts’ Amended Contracts, credited to or charged against the Accounts, without regard to other income, gains or losses of Equitable Life or EOC, as the case may be. The same will be true of any Future Account of Equitable Life or EOC.

6. Equitable Life previously offered Contracts as described in the Prior Applications (“2001 Contracts covered by the Existing Order”). Equitable Life currently offers Contracts that constitute Future Contracts covered by the Existing Order. At the appropriate time after

effectiveness of the amended registration statements describing the Amended Contracts, Equitable Life will begin offering the Amended Contracts, as well.

7. The Amended Contracts reflect certain differences from the 2001 Contracts covered by the Existing Order. However, Applicants respectfully submit that these differences do not preclude the Amended Contracts from being substantially similar in all material respects to the 2001 Contracts covered by the Existing Order such that they constitute Future Contracts covered by the Existing Order. Nevertheless, as stated above, Applicants are filing this Application to avoid any uncertainty that may arise as a result of the following differences between the 2001 Contracts covered by the Existing Order and the Amended Contracts:

a. Separate Account Charges

2001 Contracts covered by the Existing Order have a mortality and expense risk charge at the annual rate of 1.10% and an administrative expense charge at the annual rate of 0.25%. Amended Contracts have a mortality and expense risk charge at the annual rate of 0.90% and an administrative expense charge of 0.35%.

b. Death Benefit Options and Death Benefit Charges

2001 Contracts covered by the Existing Order offer a guaranteed minimum death benefit ("GMDB") of either a "5% roll up to age 80" or an "annual ratchet to age 80" at no additional charge. Amended Contracts offer a GMDB (return of premiums) at no additional charge; an optional "annual ratchet to age 85" death benefit for a charge at the annual rate of 0.25% of the applicable benefit base; and an optional

"greater of 5% roll up to age 85 or annual ratchet to age 85" death benefit for a charge at the annual rate of 0.50% of the applicable benefit base.

Under 2001 Contracts covered by the Existing Order, withdrawals reduce the GMDB as follows: (i) For Contracts with the 5% roll up to age 80, withdrawals reduce the GMDB on a dollar-for-dollar basis to the extent the sum of withdrawals in a contract year is 5% or less of the GMDB on the most recent contract date anniversary, and on a pro-rata basis thereafter; and (ii) for Contracts with the annual ratchet to age 80, all withdrawals reduce the GMDB on a pro-rata basis. Under Amended Contracts, for all death benefit options, withdrawals reduce the GMDB benefit base on a pro-rata basis.

c. Income Benefit

2001 Contracts covered by the Existing Order may offer an optional baseBuilder income benefit for a charge at the annual rate of 0.30% of the applicable benefit base. Amended Contracts offer an optional guaranteed minimum income benefit for a charge at the annual rate of 0.55% of the guaranteed minimum income benefit base.

d. Protection Plus Benefit

2001 Contracts covered by the Existing Order offer an optional Protection Plus benefit for an annual charge 0.20% of account value (deducted on each contract date anniversary). Amended Contracts offer an optional Protection Plus benefit for an annual charge of 0.35% of account value (deducted on each contract date anniversary).

For Contract owners who elect the Protection Plus benefit (available for nonqualified contracts, subject to state

availability), the death benefit is equal to: (i) The greater of the account value or any applicable death benefit, plus (ii) 40% (25% for annuitant issue ages 70-75) of the lesser of total net contributions or the death benefit less total net contributions. For Amended Contract owners who elect the Protection Plus benefit (available for nonqualified, IRA and tax sheltered annuity contracts, subject to state availability), the death benefit is equal to: (i) The greater of the account value or any applicable death benefit, plus (ii) 40% (25% for annuitant issue ages 71-75) of such death benefit less total net contributions.

e. Guaranteed Principal Benefits

Amended Contracts offer a guaranteed principal benefit Option 1 for no additional charge, and a guaranteed principal benefit Option 2 for a charge of 0.50% as a percentage of account value (deducted annually on the first 10 contract date anniversaries).

f. Administrative Charge

2001 Contracts covered by the Existing Order do not impose an annual administrative expense charge. Amended Contracts have an annual administrative expense charge of \$30 (deducted from account value on each contract date anniversary).¹⁰ The charge is waived for account values of \$50,000 or more on the contract date anniversary.

g. Contract Withdrawal Charge

2001 Contracts covered by the Existing Order and Amended Contracts impose a withdrawal charge equal to a percentage of contributions determined by the contract year in which such contributions are withdrawn as follows¹¹:

(In percentages)

Contract year	1	2	3	4	5	6	7	8	9	10+
2001 contracts covered by the existing order	8	8	7	6	5	4	3	2	1	0
Amended contracts	8	8	7	7	6	5	4	3	0	0

2001 Contracts covered by the Existing Order offer an annual 15% "free corridor" amount. Amended Contracts offer an annual 10% "free withdrawal" amount.

h. Credits

2001 Contracts covered by the Existing Order offered Credits based on

contributions as described in the Prior Applications according to the following schedule:

Contributions		Credit rate (as a percentage of contribution)
At Least	But Less Than	
Minimum	\$ 250,000	4.0
\$ 250,000	\$ 1,000,000 ...	5.0
\$ 1,000,000 ...	Maximum	6.0

¹⁰ During the first two contract years, the charge is the lesser of \$30 or 2% of the account value.

¹¹ A withdrawal charge applies in two circumstances: (1) if one or more withdrawals are made during a contract year that, in total, exceed the free withdrawal amount or (2) the contract is

surrendered in order to receive its cash value or cash value is applied to a non-life contingent annuity payout option.

Amended Contracts Order may offer Credits based on contributions as described in the Prior Applications Credits according to the following schedule:

Contributions		Credit rate (as a per- centage of contribution)
At least	But less than	
Minimum	\$ 500,000	4.0
\$ 500,000	\$ 1,000,000 ...	4.5
\$ 1,000,000 ...	Maximum	5.0

i. Fixed Investment Options

2001 Contracts covered by the Existing Order do not offer a "guaranteed interest account." Amended Contracts offer a "guaranteed interest account" that pays a guaranteed rate of interest and is not subject to a market value adjustment. Equitable will recapture Credits on a pro rata basis from the value in the variable investment options and the guaranteed interest account. If those amounts are insufficient, Equitable will deduct the balance from the fixed maturity options in order of the earliest maturity dates first.

j. Annuitization

Under 2001 Contracts covered by the Existing Order and Amended Contracts (except in Florida) annuity payments may not begin earlier than the fifth contract date anniversary. Under Amended Contracts issued in Florida, annuity payments may begin as early as the first contract date anniversary

8. Applicants may recapture Credits of up to 6% under the Amended Contracts under the same circumstances covered by the Existing Order, described above. In addition, if an Amended Contract owner starts receiving annuity payments under a life contingent annuity payout option before the fifth contract date anniversary, Equitable will recover the Credit that applies to any contribution made within such five-year period.

9. Applicants submit that their request for an order that applies to the Accounts or any Future Account, in connection with the issuance of Amended Contracts described herein and Future Contracts that are substantially similar in all material respects to the Amended Contracts and underwritten or distributed by AXA Advisors, LLC, AXA Distributors, LLC, or Equitable Broker-Dealers, is appropriate in the public interest for the same reasons as those given in support of the Existing Order.

Applicants' Legal Analysis

1. Section 6 (c) of the Act authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities or transactions from the provisions of the Act and the rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

2. Applicants request that the Commission issue an amended order pursuant to Section 6(c) of the Act, granting exemptions from the provisions of Sections 2(a)(32), 22(c) and 27(i)(2)(A) of the Act and Rule 22c-1 thereunder, to the extent necessary to permit Applicants to recapture Credits under Amended Contracts under the same circumstances covered by the Existing Order, and if an Amended Contract owner starts receiving annuity payments under a life contingent annuity payout option before the fifth contract date anniversary, as described in paragraph 8 of Applicants' Representations, above.¹²

3. Applicants submit that the recapture of Credits under the Amended Contracts will not raise concerns under Sections 2(a)(32), 22(c) and 27(i)(2)(A) of the Act, and Rule 22c-1 thereunder for the same reasons given in support of the Existing Order. Applicants submit that when Equitable recaptures any Credit, it is simply retrieving its own assets. Applicants submit that a Contract owner's interest in any Credit allocated before an owner starts receiving annuity payments under a life contingent payout option within the first five contract years is not vested. Rather, Equitable retains the right to, and interest in, the Credit, although not any earnings attributable to the Credit.

4. Applicants state that because a Contract owner's interest in any recapturable Credit is not vested, the owner will not be deprived of a proportionate share of the applicable Account's assets, *i.e.*, a share of the applicable Account's assets proportionate to the Contract owner's annuity account value (taking into account the investment experience attributable to any Credit). The amounts recaptured will never exceed the Credits provided by Equitable from its own general account assets, and Equitable will not recapture any gain attributable to the Credit.

¹²Pursuant to Rule 0-4 under the Act, Applicants incorporate by reference the legal analysis set out in the Prior Application.

5. Applicants submit that the recapture of Credits relating to contributions made prior to the date an owner starts receiving annuity payments under a life contingent annuity payout option before the fifth contract date anniversary is designed to provide Equitable with a measure of protection against "anti-selection." The risk here is that rather than investing contributions over a number of years, a Contract owner could make an initial contribution, receive Credits, then annuitize under a life contingent annuity payout option within the first five contract years leaving Equitable less time to recover the cost of the Credits applied, to its financial detriment. Like the recapture of Credits permitted by the Existing Order, the amounts recaptured will equal the Credits provided by Equitable from its own general account assets, and any gain associated with the Credit will remain part of the Contract owner's Contract value.

6. For the foregoing reasons, Applicants submit that the provisions for recapture of any Credit under the Amended Contracts do not violate Section 2(a)(32), 22(c), and 27(i)(2)(A) of the Act, and Rule 22c-1 thereunder, and that the requested relief therefrom is consistent with the exemptive relief provided under the Existing Order.

Conclusion

Applicants submit, based on the grounds summarized above, that their exemptive request meets the standards set out in Section 6(c) of the Act, namely, that the exemptions requested are necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act, and that, therefore, the Commission should grant the requested order.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.
