Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* New Collection; *Title of Information Collection:* Medicare Health Survey (MHS); *Form No.:* CMS-10096 (OMB# 0938-NEW); *Use:* The Centers for Medicare and Medicaid Services has developed a survey, the Medicare Health Survey, that is similar to the Health Outcomes Survey (HOS). The main purpose of the MHS is to collect information that may be used to adjust Medicare payment. This approach has been tested for PACE (as mandated by BBA) and other organizations that serve frail populations and frailty adjusted payments will be made to PACE and certain demonstrations starting in 2004. CMS is currently investigating the feasibility of applying frailty adjustment to the M+C program in the future. To
