telephone 703/358-2104.

SUPPLEMENTARY INFORMATION:

Endangered Species

The public is invited to comment on
the following applications for a permit
to conduct certain activities with
endangered species. This notice is
provided pursuant to Section 10(c) of
the Endangered Species Act of 1973, *as
amended* (16 U.S.C. 1531, *et seq.*).
Written data, comments, or requests for
copies of these complete applications
should be submitted to the Director
(address above).

PRT-076575.

Applicant: Gregg V. Severinson, Sidney,
NE.

The applicant requests a permit to
import the sport-hunted trophy of one
male bontebok (*Damaliscus pygargus
dorcas*) culled from a captive herd
maintained under the management
program of the Republic of South Africa,
for the purpose of enhancement of the
survival of the species.

PRT-076616

Applicant: Steven D. Reiley, Grand
Rapids, MI.

The applicant requests a permit to
import the sport-hunted trophy of one
male bontebok (*Damaliscus pygargus
dorcas*) culled from a captive herd
maintained under the management
program of the Republic of South Africa,
for the purpose of enhancement of the
survival of the species.

PRT-076685

Applicant: Lewis E. Misterly, Anaheim
Hills, CA.

The applicant requests a permit to
import the sport-hunted trophy of one
male bontebok (*Damaliscus pygargus
dorcas*) culled from a captive herd
maintained under the management
program of the Republic of South Africa,
for the purpose of enhancement of the
survival of the species.

PRT-695190

Applicant: Western Foundation of
Vertebrate Zoology, Camarillo, CA.

The applicant requests renewal of the
permit to export and re-import non-
living museum specimens of
endangered and threatened species of
plants and animals previously
accessioned into the applicant's
collection for scientific research. This
notification covers activities to be
conducted by the applicant over a five-
year period.

PRT-075484

Applicant: Saint Louis Zoological
Park, St. Louis, MO.

The applicant requests a permit to
import biological samples from
Galapagos hawk (*Buteo galapagoensis*)
located on the Galapagos Islands,
Ecuador, for the purpose of scientific
research. This notification covers
activities to be conducted by the
applicant over a five-year period.

Dated: September 5, 2003.

Monica Farris,

Senior Permit Biologist, Branch of Permits,
Division of Management Authority.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability of a Safe Harbor Agreement and Receipt of Application for an Enhancement of Survival Permit for Activities on the (Crosswhite) EC Bar Ranch, Apache County, AZ

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of availability and 30-day
public comment period.

SUMMARY: James W. Crosswhite
(Applicant) has applied to the U.S. Fish
and Wildlife Service (Service) for an
enhancement of survival permit
pursuant to section 10(a)(1)(A) of the
Endangered Species Act (Act). The
permit application includes a proposed
Safe Harbor Agreement between the
Applicant and the Service. The
Applicant has been assigned permit
number TE-075891-0. The proposed
Agreement and permit would become
effective upon signature of the
Agreement and both would remain in
effect for 50 years. The requested permit
would authorize take of two federally
listed species—the endangered
southwestern willow flycatcher
(*Empidonax traillii extimus*) and the
threatened Little Colorado River
spinedace (*Lepidomeda vittata*). The
proposed take could occur as a result of
conservation measures implemented on
2.5 miles of Nutrioso Creek in Apache
County, Arizona.

Based upon guidance in the Service's
June 17, 1999, Final Safe Harbor Policy,
if a Safe Harbor Agreement and
associated permit are not expected to
individually or cumulatively have a
significant impact on the quality of the
human environment or other natural
resources, the Agreement/permit may be
categorically excluded from undergoing
National Environmental Policy Act
(NEPA) review. We have made a
preliminary determination that the
proposed Agreement and permit
application qualify as a "Low Effect"
