SUPPLEMENTARY INFORMATION:

Background

The Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture regulates the importation of plants and plant parts into the United States to guard against the introduction of plant pests and noxious weeds into the United States.

The regulations pertaining to the importation of plants and plant parts are set forth in the Code of Federal Regulations (CFR), title 7, chapter III.

On September 20, 2000, we published in the **Federal Register** (65 FR 56803–56806, Docket No. 98–103–1) a proposal to amend the regulations to allow artificially dwarfed plants of the genera *Buxus*, *Ehretia* (*Carmona*), *Podocarpus*, *Sageretia*, and *Serissa* to be imported into the United States from the People's Republic of China in an approved growing medium subject to specified growing, inspection, and certification requirements. We accepted comments

on our proposal for a total of 90 days, ending December 20, 2000.¹

In response to comments received on the proposed rule, APHIS has revised the pest risk assessments, created a risk mitigation document, and narrowed the application of the rule to apply to particular species of the genera mentioned previously. The five revised pest risk assessments as well as the risk mitigation document are available on the Internet at <http://www.aphis.usda.gov/ppq/pim>. We have also concluded section 7 consultation with the U.S. Fish and Wildlife Service (FWS) to assess the potential effects of the proposed action on endangered or threatened species, as required under the Endangered Species Act. On April 10, 2003, FWS concluded the section 7 consultation process by concurring with APHIS' determination that the importation of *Buxus sinica*, *Ehretia microphylla*, *Podocarpus macrophyllus*, *Sageretia thea*, and *Serissa foetida* from the People's Republic of China will not adversely affect federally listed or proposed endangered or threatened species or their habitats.

Upon receiving FWS concurrence and after preparing the revised pest risk assessments and the pest mitigation document, APHIS prepared an environmental assessment in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

This notice announces the availability of the environmental assessment for public review and comment. The assessment, titled “Final Rule for the Importation of Artificially Dwarfed Plants in Growing Media From the People's Republic of China” and dated September 2003, is available on the Internet at <http://www.aphis.usda.gov/ppd/es/ppqdocs.html>. You may request paper copies of the environmental assessment from the person listed under **FOR FURTHER INFORMATION CONTACT**.

¹ The comment period on the proposed rule was extended from 60 to 90 days in a notice published in the **Federal Register** on December 1, 2000 (65 FR 75187, Docket No. 98–103–2).

Please refer to the title of the assessment when requesting copies.

The environmental assessment is also available for review in our reading room (the location and the hours of the reading room are listed under the heading **ADDRESSES** at the beginning of this notice).

Done in Washington, DC, this 11th day of September 2003.
