SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Public Notice, CC Docket No. 96-45, released September 4, 2003. On October 7, 2002, AT&T Corporation (AT&T) filed with the Commission a petition seeking preemption of the South Carolina statutes and administrative procedures that established the Interim Local Exchange Carrier (LEC) Fund. According to AT&T, the Interim LEC Fund, which began operating in 1997, provides payments to incumbent LECs in return for decreasing their intrastate access charges. Pursuant to section 58-9-280 of the South Carolina Code Annotated, entities receiving an access or interconnection rate reduction from the LECs are required to contribute to

the Interim LEC Fund. AT&T alleges that, since long distance providers, such as AT&T, pay a majority of the access charges, long distance providers are responsible for funding almost all of the Interim LEC Fund. AT&T contends that the Interim LEC Fund violates section 253(a) of the Communications Act of 1934, as amended (Act) because it discriminates against: (1) New entrants by limiting their ability to compete with the incumbent LECs receiving support from the Fund and (2) long distance providers by requiring only those providers to contribute to the Fund. AT&T also argues that the Fund does not qualify for preemption protection under section 253(b) of the Act because the Fund is not competitively neutral and not consistent with the requirements for federal universal service programs set forth in section 254 of the Act. Accordingly, AT&T asks the Commission to preempt South Carolina's Interim LEC Fund. The Wireline Competition Bureau seeks comment on the AT&T Petition.

Pursuant to §§ 1.415 and 1.419 of the Commission's rules interested parties may file comments on or before November 17, 2003, and reply comments on or before December 15, 2003.
