

90167-CA, 90170-CA, 90171-CA, 90176-CA, 90177-CA, 91732A-CA, 92476A-CA, 92004-F.

Description of the Need for the Information and Its Proposed Use: This collection facilitates processing of all Sections 202 and 811 capital advance projects that have not yet been finally closed. Owners who wish to partner with for-profit limited partner can participate in the development and management of supportive housing.

Respondents: Business or other for-profit, Not-for-profit institutions.

Frequency of Submission: On occasion.

Reporting Burden: Number of Respondents 260; Average response per respondent 9.61; Total annual responses 2,500; Average burden per response 1.93 hrs.

Total Estimated Burden Hours: 4,825.

Status: Revision of a currently approved collection.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 35, as amended.

Dated: September 11, 2003.

Donna L. Eden,

Director, Office Chief Information Officer, Office of Investments Strategies Policy and Management.

BILLING CODE 4210-72-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act; Grant Agreement and Amendment to Grant Agreement

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service (We) has submitted the collection of information listed below to OMB for approval under the provisions of the Paperwork Reduction Act. A copy of the information collection requirement is included in this notice. If you wish to obtain copies of the proposed information collection

requirement, related forms, or explanatory material, contact the Service Information Collection Clearance Officer at the address listed below.

DATES: OMB has up to 60 days to approve or disapprove an information collection but may respond after 30 days. Therefore, to ensure maximum consideration, your comments should be received by OMB by October 17, 2003.

ADDRESSES: Submit your comments on this information collection renewal to the Desk Officer for the Department of the Interior at OMB-OIRA via facsimile or e-mail using the following fax number or e-mail address: (202) 395-6566 (fax);

OIRA_DOCKET@omb.eop.gov (e-mail). Please provide a copy of your comments to the Fish and Wildlife Service's Information Collection Clearance Officer, 4401 N. Fairfax Dr., MS 222 ARLSQ, Arlington, VA 22207; (703) 358-2269 (fax); or anissa_craghead@fws.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection request, explanatory information, or related forms, contact Anissa Craghead at (703) 358-2445, or electronically to anissa_craghead@fws.gov.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). We have submitted a request to OMB to renew its approval of the collection of information for the Grant Agreement and Amendment to Grant Agreement. We are requesting a 3-year term of approval for this information collection activity.

Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is 1018-0049.

Under the authority of the Federal Aid in Wildlife Restoration Act (16 U.S.C. 669-669i), the Federal Aid in Sport Fish Restoration Act (16 U.S.C. 777-777i), the Endangered Species Act (16 U.S.C. 1531 et seq.), the Clean Vessel Act (16 U.S.C. 777c), the Sportfishing and Boating Safety Act (16 U.S.C. 777g-1), and the Coastal Wetlands Planning, Protection, and Restoration Act (16 U.S.C. 3951-3956), we administer several grant programs. We use the information collected in grant applications and agreements to make awards under these grant programs. The information collected on the grant applications and agreements helps us determine whether the estimated cost of the grant project is reasonable, the cost sharing is consistent with the applicable program statutes, and sufficient Federal funds are available for obligation. The State or other grantee uses the grant application forms and agreements to request funds and identify proposed cost sharing. Grantees complete an Amendment to Grant Agreement to request a change to a previously approved Grant Agreement. We use the Amendment to Grant Agreement to revise a previous funding obligation or otherwise document the approval of a revision. The Grant Agreement and Amendment to Grant Agreement that we have submitted to OMB for approval are modified slightly to lessen the burden on the public and to make them easier for the Service to use.

Title: Grant Agreement and Amendment to Grant Agreement.

Approval Number: 1018-0049.

Service Form Numbers: 3-1552 (Grant Agreement) and 3-1591 (Amendment to Grant Agreement).

Frequency of Collection: Annually (Grant Agreement) and on occasion (Amendment to Grant Agreement).

Description of Respondents: State, territorial (the Commonwealth of Puerto Rico, the District of Columbia, the Commonwealth of the Northern Mariana Islands, Guam, the Virgin Islands, and American Samoa), and local governments, and others receiving grant funds.

Total Annual Burden Hours:

Form name	Completion time per form (per hour)	Annual number of responses	Annual hour burden
Grant Agreement	1	3500	3500
Amendment to Grant Agreement	1	1750	1750
Totals		5250	5250

Total Annual Non-Hour Burden:

There is no non-hour burden associated with this information collection; there are no filing fees for these forms.

We again invite comments on: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of our estimate of the burden of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of collection of information on respondents, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: September 11, 2003.

Anissa Craghead,

Information Collection Officer.

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service****Recovery Plan for the Quino Checkerspot Butterfly**

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: The U.S. Fish and Wildlife Service ("we") announces the availability of the final Recovery Plan for the Quino Checkerspot Butterfly (*Euphydryas editha quino*). The Quino checkerspot butterfly is a subspecies that is currently restricted primarily to clay and granitic soils at lower elevation slopes typically below 1,400 meters (4,600 feet) in open scrub, chaparral, and woodland communities. The populations addressed in this recovery plan are found in western Riverside and southern San Diego Counties proximal to the Mexico international border.

ADDRESSES: Copies of this final recovery plan are available by written request to the Field Supervisor, U.S. Fish and Wildlife Service, Carlsbad Fish and Wildlife Office, 6010 Hidden Valley Road, Carlsbad, California 92009, or by calling 760-431-9440. An electronic copy of this recovery plan is also available at: <http://endangered.fws.gov/recovery/index.html#plans>.

FOR FURTHER INFORMATION CONTACT: Alison Anderson, at the above Carlsbad address and telephone number.

SUPPLEMENTARY INFORMATION:

Background

Recovery of endangered or threatened animals and plants is a primary goal of our endangered species program and the Endangered Species Act (Act) (16 U.S.C. 1531 *et seq.*). Recovery means improvement of the status of listed species to the point at which listing is no longer appropriate under the criteria set out in section 4(a)(1) of the Act. Recovery plans describe actions considered necessary for the conservation of the species, establish criteria for downlisting or delisting listed species, and estimate time and cost for implementing the measures needed for recovery.

The Act requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act requires that public notice, and an opportunity for public review and comment, be provided during recovery plan development. Information presented during the public comment period has been considered in the preparation of this final recovery plan, and is summarized in the appendix to the recovery plan. We will forward substantive comments regarding recovery plan implementation to appropriate Federal or other entities so that they can take these comments into account during the course of implementing recovery actions.

The Quino checkerspot butterfly is found in association with topographically diverse open woody canopy landscapes that contain low to moderate levels of non-native vegetation compared to disturbed habitat. Vegetation types that support the Quino checkerspot are coastal sage scrub, open chaparral, juniper woodland, forblands, and native grassland. Soil and climatic conditions, as well as ecological and physical factors, affect the suitability of habitat within the species' range. Urban and agricultural development, invasion of non-native species, habitat fragmentation and degradation, increased fire frequency, and other human-caused disturbances have resulted in substantial losses of habitat throughout the species' historic range. Conservation needs include: (1) Protection and management of suitable and restorable habitat; (2) habitat restoration and enhancement; and (3) establishment of a Quino checkerspot captive breeding program. This plan identifies six recovery units. Recovery units are geographically bounded areas containing extant Quino checkerspot populations that are the focus of recovery actions.

The overall objective of this recovery plan is to reduce the threats to the Quino checkerspot butterfly to the point where it can be reclassified (downlisted) to threatened and ensure the species' long-term conservation. Interim goals include: (1) Protect and manage habitat supporting known current population distributions (occurrence complexes); (2) maintain or create resilient populations; and (3) conduct research necessary to refine recovery criteria.

Downlisting of the Quino checkerspot butterfly is contingent upon the following criteria: (1) Permanently protect habitat within occurrence complexes in a configuration designed to support resilient populations; (2) conduct research on population distribution and dynamics; (3) permanently provide for and implement management of occurrence complexes to restore habitat quality and population resilience; (4) demonstrate evidence of population resilience in core occurrence complexes; (5) document or introduce an additional population in the Lake Matthews site, and demonstrate population resilience for at least one population outside current recovery units; (6) establish and maintain a captive propagation program for purposes of re-introduction and augmentation of wild populations, maintenance of refugia populations, and research; and (7) initiate and implement a cooperative outreach program targeting areas where Quino checkerspot populations are most threatened.

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: August 11, 2003.

Steve Thompson,

Manager, California/Nevada Operations Office, Region 1, U.S. Fish and Wildlife Service.
