

the proposed market-based rates for storage and park and loan services.

Keystone requests that the Commission reaffirm its prior authorization for it to continue to charge market-based rates for storage and park and loan services following the planned expansion. Keystone also requests to extend that authorization to interruptible wheeling service. Keystone states that it desires to begin to offer an interruptible wheeling service.

Any person desiring to participate in this rate proceeding must file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed with the Secretary of the Commission on or before the date as indicated below. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. This petition for rate approval is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits I the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or TTY, (202) 502-8659. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

[Project No. 5018-004]

Wellesley Rosewood Maynard Mills, L.P., Massachusetts; Notice of Availability of Draft Environmental Assessment

September 17, 2003.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory

Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for surrender of the exemption from licensing for the Mill Pond Hydroelectric Project and has prepared a Draft Environmental Assessment (DEA) for the project. The project is located on the Assabet River, in Maynard, Massachusetts, within Middlesex County. No federal lands or facilities are occupied or used by the project.

The DEA contains the staff's analysis of the potential environmental impacts of the project and concludes that surrendering the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the DEA is on file with the Commission and is available for public inspection. The DEA may also be viewed on the web at <http://www.ferc.gov>, using the "eLibrary" link and by selecting the "General Search" link and following the instructions (call (866) 206-3676 for assistance).

Any comments should be filed within 45 days from the date of this notice and should be addressed to Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please affix Project No. 5018-004 to all comments. Comments may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "eFiling" link.
