SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration, Import Administration, AD/CVD Enforcement, implements the U.S. antidumping and countervailing duty law. Import Administration investigates allegations of unfair trade practices by foreign governments and producers and, in conjunction with the U.S. International Trade Commission, can impose duties on the product in question to offset the unfair practices. Form ITA-366P—Format for Petition Requesting Relief Under the U.S. Countervailing Duty Law—is designed for U.S. companies or industries that are unfamiliar with the Countervailing law and the petition process. The Form is designed for potential petitioners that believe a foreign competitor is being subsidized unfairly. Since a variety of detailed information is required under the law before initiation of a countervailing duty investigation, the Form is designed to extract such information in the least burdensome manner possible.
