J. Public hearing on measures to manage the Hawaii longline fishery

A public hearing will be held to receive comments on long-term management of the pelagic fishery of the Western Pacific Region, especially the Hawaii-based longline fishery. The Council is developing an amendment to the regulations under the Fishery Management Plan for the Pelagics Fisheries of the Western Pacific Region that would address the fact that an August 31, 2003, Court order vacated NMFS' 2002 Biological Opinion and related regulations, removing any authorization of incidental takes of sea turtles by the fishery that had been provided by the Biological Opinion. At its 119th meeting, the Council took final action to recommend an emergency rule for the short-term management of the longline fishery to conserve sea turtles, and also directed its staff to analyze and document the impacts of a range of alternatives for the long-term management of the fishery. At its 120th meeting, the Council may take final action to recommend a preferred long-term alternative, or it may defer that decision to a later date.
