## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[30Day-74-03]

#### Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210. Send written comments to CDC, Desk Officer, Human

Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

*Proposed Project:* International Performance Standards Project—New—Public Health Practice Program Office (PHPPO), Centers for Disease Control and Prevention (CDC).

The Centers for Disease Control and Prevention (CDC) Public Health Practice Program Office (PHPPO), is proposing to implement a required data collection to:

- a. Assess public health preparedness of countries to respond to a public health threat or emergency.
- b. Assess progress of countries towards (1) identifying any gaps that need to be strengthened in their public health systems, (2) achieving the critical and enhanced capacities of their public health systems, and (3) setting optimal standards for system performance that will enhance the delivery of public health services.
- c. Identify the focus of future proposed work plans, as well as help countries develop a public health research agenda.
- d. Provide a consistent framework for each country to characterize the status of its public health infrastructure.

This assessment will use the International Instrument for performance measurement of Essential Public Health Functions. This instrument is used for rapid assessment of capacity at the level of the National Health Authority of countries to respond to public health threats and emergencies. This instrument focuses on the six areas of fiscal year 2002 Supplemental Funds for Public Health Preparedness and Response for Bioterrorism (Announcement Number 99051), as the framework for data collection. The six focus areas are:

- Preparedness Planning and Readiness Assessment
- Surveillance and Epidemiology Capacity
- Laboratory Capacity—Biological Agents
- Health Alert Network/Communication and Information Technology
- Risk Communication and Health Information Dissemination (Public Information and Communication)
- Education and Training

Hard copy assessment instruments will be used in a group setting within countries to collect the data. The respondents will be individuals from all levels of the health system who are knowledgeable about the functions of their system. This process is being done
