The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of that document on that resource agency.

Based on feedback received on the SD1 and the project site visit, Sitka will prepare a Scoping Document 2 (SD2). SD2 will include a revised list of issues based on the meeting and written comments.

All interested individuals, organizations, and agencies are invited and encouraged to attend the meetings and site visit and to assist in the identification of environmental issues that should be included in SD2.

We are asking federal, state, local, and tribal agencies with jurisdiction and/or special expertise with respect to environmental issues to cooperate with us in the preparation of the Commission's EA. Agencies who would like to request cooperating agency status should file such a request (original and eight copies) with the Secretary at the aforementioned address. Please put the docket number, P-2230-033, on the first page of your filing.
