(f) Except as provided in paragraph (g) of this section, the following distributions to nonregulated persons, and the following export transactions, are not subject to the reporting requirements in § 1310.03(c):

(1) Distributions of sample packages of drug products when those packages contain not more than two solid dosage units or the equivalent of two dosage units in liquid form, not to exceed 10 milliliters of liquid per package, and not more than one package is distributed to an individual or residential address in any 30-day period.

(2) Distributions of drug products by retail distributors that may not include face-to-face transactions to the extent that such distributions are consistent with the activities authorized for a retail distributor as specified in § 1300.02(b)(29) of this chapter.

(3) Distributions of drug products to a resident of a long term care facility or distributions of drug products to a long term care facility for dispensing to or for use by a resident of that facility.

(4) Distributions of drug products in accordance with a valid prescription.

(5) Exports which have been reported to the Administrator under §§ 1313.31 and 1313.32 of this chapter or which are subject to a waiver granted under § 1313.21 of this chapter.

(g) The Administrator may revoke any or all of the exemptions listed in paragraph (f) of this section for an individual regulated person if the Administrator finds that drug products distributed by the regulated person are being used in violation of the regulations in this chapter or the Controlled Substances Act. The Administrator will notify the regulated person of the revocation, as provided in § 1313.41(a) of this chapter. The revocation will be effective upon receipt of the notice by the person. The regulated person has the right to an expedited hearing regarding the revocation, as provided in § 1313.56(a) of this chapter.

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 938

[PA-144-FOR]

Pennsylvania Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule.

SUMMARY: We are removing a required amendment to the Pennsylvania regulatory program (the Pennsylvania program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). The amendment required Pennsylvania to demonstrate that the revenues generated by its

collection of the reclamation fee will assure that Pennsylvania's Surface Mining Conservation and Reclamation Fund can be operated in a manner that will meet the alternative bonding system requirements contained in the Federal regulations. In addition, the amendment required Pennsylvania to clarify the procedures to be used for bonding the surface impacts of underground mines and the procedures to reclaim underground mining permits where the operator has defaulted on the obligation to reclaim. In response to the amendment, Pennsylvania submitted information to us describing existing and planned changes and enhancements to its bonding program that we have found satisfactorily address the amendment's requirements.

EFFECTIVE DATE: October 7, 2003.

SUPPLEMENTARY INFORMATION:

- I. Background on the Pennsylvania Program
- II. Submission of the Proposed Amendment
- III. OSM's Findings
- IV. Summary and Disposition of Comments
- V. OSM's Decision
- VI. Procedural Determinations

I. Background on the Pennsylvania Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, "a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of the Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to the Act." See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Pennsylvania program on July 30, 1982. You can find background information on the Pennsylvania program, including the Secretary's findings, the disposition of comments, and conditions of approval in the July 30, 1982, **Federal Register** (47 FR 33050). You can also find later actions concerning Pennsylvania's program and program amendments at 30 CFR 938.11, 938.12, 938.15 and 938.16.

II. Submission of the Proposed Amendment

The required amendment we are removing as a result of this rulemaking is codified at 30 CFR 938.16(h). We required the amendment in a May 31, 1991, final rule (56 FR 24687) (1991 rulemaking). By letter dated June 5, 2003 (Administrative Record No. PA 802.27), Pennsylvania sent us a document entitled, "Pennsylvania Bonding System Program Enhancements" (program enhancements document). The letter was sent in response to the October 1, 1991, notice sent to Pennsylvania under 30 CFR 732.17(c) through (e) (1991 notice). In a second letter, also dated June 5, 2003 (Administrative Record No. PA 802.28), Pennsylvania stated that the material submitted with the first letter also addresses the first part of the 1991 rulemaking dealing with its alternative bonding system (ABS). The second letter also clarified that bonding for the surface impacts of underground mines and the procedures to reclaim underground mining permits where the operator has defaulted on the obligation to reclaim, are handled by conventional bonds and are not, and have not been, a part of the alternative bonding program at issue in the first part of the 1991 rulemaking. This later information was intended to address the remainder of the 1991 rulemaking. In a letter to Pennsylvania dated June 12, 2003 (Administrative Record No. PA 802.29), we found the actions taken, as described in the attachment to the first letter, were sufficient to resolve our 1991 notice. Therefore, we terminated that notice, which addressed deficiencies in the Pennsylvania ABS. We found the letters were also responsive to the required program amendment at 30 CFR 938.16(h) and proposed removing that provision codified in the 1991 rulemaking.

We announced our proposal to remove the required amendment in the June 26, 2003, **Federal Register** (68 FR 37987). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on removing the required amendment. We did not hold a public hearing because no one requested one. We received a request for a public meeting, but it was withdrawn before the meeting was held. The public comment period ended on July 28, 2003. We received comments from two Federal agencies (the United States Environmental Protection Agency, Region III, and the United States Department of Labor, Mine Safety and Health Administration's (MSHA) New
