RIN 1652-AA20

Transportation Security Administration Transition to Department of Homeland Security; Technical Amendments Reflecting Organizational Changes; Correction

AGENCY: Transportation Security Administration (TSA), DHS.

ACTION: Final rule; correction.

SUMMARY: The document contains a correction to the final rule published in the **Federal Register** on August 19, 2003. That rule makes technical changes to various provisions of chapter XII, title 49 of the Code of Federal Regulations, mainly in response to enactment of the Homeland Security Act of 2002. In addition, the rule revises any references to our location address or mailing address, as necessary due to TSA's physical move of its headquarters facilities and personnel from Washington, DC, to Arlington, Virginia. TSA inadvertently left out the correct mailing address for the Enforcement Docket in certain sections of part 1503. This document adds the correct mailing address to these sections.

DATES: Effective October 9, 2003.

FOR FURTHER INFORMATION CONTACT: Marisa Mullen, Office of the Chief Counsel, TSA-2, Transportation Security Administration, West Building, Floor 8, 601 South 12th Street, Arlington, VA 22202-4220; telephone (571) 277-2706; e-mail marisa.mullen@dhs.gov.

SUPPLEMENTARY INFORMATION:

Background

On August 19, 2003, TSA published a final rule in the **Federal Register** (68 FR 49718), making technical changes to various provisions of chapter XII, title 49 (Transportation) of the Code of Federal Regulations (CFR), mainly in response to enactment of the Homeland Security Act of 2002 (HSA). In addition, the rule revises any references to our location address or mailing address, as necessary due to TSA's physical move of its headquarters facilities and personnel from Washington, DC, to Arlington, Virginia. TSA inadvertently left out the correct mailing address for the Enforcement Docket in certain sections of part 1503. This document adds the correct mailing address to these sections, changing the address from 400 Seventh Street, SW., Washington, DC 20590 to 601 South 12th Street, Arlington, VA 22202-4220.

Fisheries of the Northeastern United States; Tilefish Fishery; Continuation of Specifications for the 2004 Fishing Year

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of continuation of specifications for fishing year 2004.

SUMMARY: NMFS announces that it will continue the 2003 quota specifications for the golden tilefish fishery for the 2004 fishing year. Accordingly, the total allowable landings (TAL) for the 2004 fishing year will remain at 1.995-million lb (905,172-kg). The intent of this action is to notify the public that there will be no change in the fishery specifications for tilefish for the fishing year beginning November 1, 2003.

DATES: Effective from November 1, 2003, through October 31, 2004.

FOR FURTHER INFORMATION CONTACT: Douglas W. Christel, 978-281-9141; fax 978-281-9135; e-mail Douglas.Christel@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

The final rule implementing the Tilefish Fishery Management Plan (FMP) became effective on November 1, 2001 (66 FR 49136, September 26, 2001). Pursuant to the tilefish regulations at 50 CFR 648.290, the Tilefish FMP Monitoring Committee (Monitoring Committee) will meet after the completion of each stock assessment, or at the request of the Mid-Atlantic Fishery Management Council (Council) Chairman, to review tilefish landings information and any other relevant available data to determine if the annual quota requires modification to respond to changes to the stock's biological reference points or to ensure

that the rebuilding schedule is maintained. Additional management measures or revisions to existing measures could also be considered at this time to ensure that the TAL would not be exceeded. Furthermore, up to 3 percent of the TAL could be set aside for a given fishing year for the purpose of funding research. In the event that a new stock assessment is not completed or the Council Chairman does not request that the Monitoring Committee meet, the regulations further specify that the previous year's specifications will remain effective and that NMFS will issue notification in the **Federal Register** to inform the public.

A new tilefish stock assessment is not scheduled to occur until 2004. Consequently, the Council Chairman

did not request that the Monitoring Committee meet to determine if the annual quota requires modification to respond to stock conditions. Furthermore, the Council, at its August 2003 meeting, voted on research set-aside proposals that did not include a request for a tilefish research set-aside allocation for the upcoming fishing year. Therefore, NMFS informs the public that the 2003 quota specifications of 1.995-million lb (905,172-kg) for the golden tilefish fishery will remain in effect for the 2004 fishing year (November 1, 2003, through October 31, 2004).

A recent decision in the case of *Hadaja v. Evans* set aside the permit categories for the tilefish fishery. However, the TAL for the fishery is not

affected by this decision. Accordingly, for the 2004 fishing year, unless otherwise modified by the Council and NMFS, the 1.995-million lb (905,172-kg) TAL is applicable to the entire fishery and will not be distributed among permit categories according to the regulations at § 648.290(b).

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: : 16 U.S.C. 1801 *et seq.*
