SUPPLEMENTARY INFORMATION:**Notice of Application**

The Occupational Safety and Health Administration (OSHA) hereby gives notice that Underwriters Laboratories Inc. (UL) has applied for expansion of its recognition as a Nationally Recognized Testing Laboratory (NRTL). UL's expansion request covers the use of additional test standards. OSHA's

current scope of recognition for UL may be found in the following informational Web page: <http://www.osha-slc.gov/dts/otpca/nrtl/ul.html>.

OSHA recognition of an NRTL signifies that the organization has met the legal requirements in section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products "properly certified" by the NRTL to meet OSHA standards that require testing and certification.

The Agency processes applications by an NRTL for initial recognition or for expansion or renewal of this recognition following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. We maintain an informational Web page for each NRTL, which details its scope of recognition. These pages can be accessed from our Web site at <http://www.osha-slc.gov/dts/otpca/nrtl/index.html>.

The most recent notice published by OSHA for UL's recognition covered an expansion of recognition, which became effective on March 25, 2003 (68 FR 14432).

UL International (Netherlands) B.V., Landjuweel 52, NL-3905 PH Veenendaal, Netherlands.

General Background on the Application.

UL has submitted an application, dated November 18, 2002 (*see* Exhibit 30), to expand its recognition to include 41 additional test standards. The NRTL Program staff has determined that ten of these standards cannot be included in the expansion because they are not "appropriate test standards" within the meaning of 29 CFR 1910.7(c), while an additional twelve of the standards requested are already included in UL's scope. The staff makes similar determinations in processing expansion requests from any NRTL. Therefore, OSHA would approve 19 test standards for the expansion, which are listed below. Through no fault of UL, the application has been delayed in processing. UL seeks recognition for testing and certification of products for demonstration of conformance to the following test standards:

UL 441 Standard for Gas Vents.

UL 508A Industrial Control Panels.

UL 515 Electrical Resistance Heat Tracing for Commercial and Industrial Applications.

UL 568 Nonmetallic Cable Tray Systems.

UL 943B Appliance Leakage-Current Interrupters.

UL 1004A Fire Pump Motors.

UL 1285 Pipe and Couplings, Polyvinyl Chloride (PVC) for Underground Fire Service.

UL 1713 Pressure Pipe and Coupling, Glass Fiber-Reinforced, for Underground Fire Service.

UL 2129 Standard for Safety for Halocarbon Clean Agent Fire Extinguishers.

UL 2305 Exhibition Display Units, Fabrication and Installation.

UL 2351 Spray Nozzles for Fire-Protection Service.

UL 2388 Flexible Lighting Products.

UL 3111-2-31 Hand-Held Probe Assemblies for Electrical Measurement and Test.

UL 60335-2-8 Household and Similar Electrical Appliances, Part 2: Particular Requirements for Electric Shavers, Hair Clippers, and Similar Appliances.

UL 61010A-2-010 Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Laboratory Equipment for the Heating of Materials.

UL 61010A-2-041 Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Autoclaves Using Steam for the Treatment of Medical Materials for Laboratory Processes.

UL 61010A-2-042 Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Autoclaves and Sterilizers Using Toxic Gas for the Treatment of Medical Materials, and for Laboratory Processes.

UL 61010A-2-051 Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Laboratory Equipment Mixing and Stirring.

UL 61010A-2-061 Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Laboratory Atomic Spectrometers with Thermal Atomization and Ionization.

The designations and titles of the above test standards were current at the time of the preparation of this notice.

OSHA's recognition of UL, or any NRTL, for a particular test standard is limited to equipment or materials (*i.e.*, products) for which OSHA standards require third party testing and certification before use in the workplace. Consequently, an NRTL's scope of recognition excludes any product(s) that fall within the scope of a test standard, but for which OSHA standards do not require NRTL testing and certification.

Many of the test standards listed above are approved as American

National Standards by the American National Standards Institute (ANSI). However, for convenience in compiling the list, we show the designation of the standards developing organization (e.g., UL 441) for the standard, as opposed to the ANSI designation (e.g., ANSI/UL 441). Under our procedures, an NRTL recognized for an ANSI-approved test standard may use either the latest proprietary or ANSI version of that standard, regardless of which version appears in the list of test standards found on OSHA's informational Web page for the NRTL. Contact "NSSN" (<http://www.nssn.org>), an organization partially sponsored by ANSI, to find out whether a standard is currently ANSI-approved.

Preliminary Finding on the Application

UL has submitted an acceptable request for expansion of its recognition as an NRTL. In connection with this request, OSHA did not believe it necessary to perform an on-site review of UL's NRTL testing facilities. However, following a review of the application file and other pertinent documents, the NRTL Program staff has concluded that OSHA should grant to UL the expansion of recognition as an NRTL to use the additional test standards listed above (see Exhibit 31). The staff, therefore, recommended to the Assistant Secretary that the application be preliminarily approved.

Based upon the recommendation of the staff, the Agency has made a preliminary finding that Underwriters Laboratories Inc. can meet the requirements, as prescribed by 29 CFR 1910.7, for the expansion of recognition. This preliminary finding does not constitute an interim or temporary approval of the application.

OSHA welcomes public comments, in sufficient detail, as to whether UL has met the requirements of 29 CFR 1910.7 for expansion of its recognition as a Nationally Recognized Testing Laboratory. Your comment should consist of pertinent written documents and exhibits. To consider a comment, OSHA must receive it at the address provided above (see ADDRESSES), no later than the last date for comments (see DATES above). Should you need more time to comment, OSHA must receive your written request for extension at the address provided above no later than the last date for comments. You must include your reason(s) for any request for extension. OSHA will limit any extension to 30 days, unless the requester justifies a longer period. We may deny a request for extension if it is frivolous or otherwise unwarranted. You may obtain or review copies of UL's

request, the recommendation on the expansion, and all submitted comments, as received, by contacting the Docket Office, Room N2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. You should refer to Docket No. NRTL4-93, the permanent record of public information on UL's recognition.

The NRTL Program staff will review all timely comments and, after resolution of issues raised by these comments, will recommend whether to grant UL's expansion request. The Agency will make the final decision on granting the expansion and, in making this decision, may undertake other proceedings that are prescribed in Appendix A to 29 CFR Section 1910.7. OSHA will publish a public notice of this final decision in the **Federal Register**.

Signed at Washington, DC this 7th day of October, 2003.

John L. Henshaw,
Assistant Secretary.
