

- Fax: 1-202-493-2251.
- Mail: Docket Management Facility; U.S. Department of Transportation, 400 Seventh Street, SW., Nassif Building, Room PL-401, Washington, DC 20590-0003.

- Hand Delivery: Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 am and 5 pm, Monday through Friday, except Federal Holidays.

- Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

**Instructions:** All submissions must include the agency name and docket number for this collection. It is requested, but not required, that two copies of the comments be provided. Note that all comments received will be posted without change to <http://dms.dot.gov>, including any personal information provided. Please see the Privacy Act heading under Regulatory Notices.

**Docket:** For access to the docket to read background documents or comments received, go to <http://dms.dot.gov> at any time or to Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 am and 5 pm, Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Complete copies of each request for collection of information may be obtained at no charge from Mr. Michael Huntley, NHTSA, 400 Seventh Street, SW., Room 5320, NVS-113, Washington, DC 20590.

Mr. Huntley's telephone number is (202) 366-0029. Please identify the relevant collection of information by referring to its OMB Control Number.

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected;

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collection of information:

**Title:** 49 CFR 571.213, "Child Restraint Systems".

**OMB Control Number:** 2127-0511.

**Affected Public:** Business.

**Abstract:** Manufacturers are required to provide owner registration cards and to label each child restraint system with a message informing users of the importance of registering the restraint with the manufacturer. The owner registration information is then retained in the event that owners need to be contacted for recall or replacement campaigns. The manufacturer is also required to provide a printed instructions brochure with step-by-step information on how the restraint is to be used. Without proper use, the effectiveness of these systems is greatly diminished. Each child restraint system must also have a permanent label. A permanently attached label gives quick-look information on whether the restraint meets the safety requirements, recommended installation and use, and warnings against misuse.

**Estimated Annual Burden:** 90,000 hours.

**Number of Respondents:** 15.

Currently, approximately 15 manufacturers produce, on average, a total of approximately 4,500,000 child restraints per year. The agency estimates that manufacturers use a total of 0.02 hours per response. The estimated annual burden hour is 90,000 hours. This number reflects the total responses (4,500,000) times the total hours per response (0.02). Prior years' information indicates that it takes an average of \$20.00 per hour for professional/clerical personnel to collect the information for Standard No. 213. Therefore, the agency estimates that the cost associated with the burden hours is \$1,800,000 (\$20.00 per hour x 90,000 burden hours).

Comments are invited on: whether the proposed collection of information is necessary for the proper performance of

the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued on October 9, 2003.

## DEPARTMENT OF TRANSPORTATION

### National Highway Traffic Safety Administration

#### Reports, Forms and Record Keeping Requirements; Agency Information Collection Activity Under OMB Review

**AGENCY:** National Highway Traffic Safety Administration, DOT.

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collections and their expected burden. The **Federal Register** Notice with a 60-day comment period was published on June 12, 2003 [68 FR 35253-35254].

**DATES:** Comments must be submitted on or before November 17, 2003.

**FOR FURTHER INFORMATION CONTACT:** Marvin Levy, Ph.D. at the National Highway Traffic Safety Administration, Office of Research and Technology (NTI-131), 202-366-5597, 400 Seventh Street, SW, Room 5319, Washington, DC 20590.

#### SUPPLEMENTARY INFORMATION:

### National Highway Traffic Safety Administration

**Title:** National Survey of Drinking and Driving Attitudes and Behavior.

**OMB Number:** 2127—New.

**Type of Request:** New Collection.

**Abstract:** Recent data show an increase in alcohol-related crashes. In 1999, 16,572 persons were killed in alcohol-related crashes; in 2000, it rose to 17,380 and for 2001, it rose again to 17,448 deaths. Based on this alarming trend, the NHTSA Administrator has

made it an agency goal to reduce the death rate, from 0.63 to 0.53 deaths per 100-million vehicle miles traveled. In order to plan and evaluate programs intended to reduce alcohol-impaired driving, NHTSA needs to periodically update its knowledge and understanding of the public's attitudes and behaviors with respect to drinking and driving. The proposed survey, the seventh in this series of biennial surveys, will be administered by telephone to a national probability sample of the driving-age public (aged 16 years or older as of their last birthday).

The findings from this proposed collection will assist NHTSA in addressing the problem of alcohol-impaired driving and in formulating programs and recommendations to Congress. NHTSA will use the findings to help focus future programs and activities to achieve improved efficiencies and outcomes. Also, comparisons with previous surveys will be made.

*Affected Public:* Individuals or households.

*Estimated Total Annual Burden:* 1,800 hours.

**ADDRESSES:** Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention NHTSA Desk Officer.

*Comments are invited on:* Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Departments estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A Comment to OMB is most effective if OMB receives it within 30 days of publication.

**Marilena Amoni,**

*Associate Administrator, Program Development and Delivery.*

## DEPARTMENT OF TRANSPORTATION

### Surface Transportation Board

[STB Section 5a Application No. 45 (Amendment No. 17)]

#### Niagara Frontier Tariff Bureau, Inc.— Agreement

By application filed on July 25, 2003, the Niagara Frontier Tariff Bureau, Inc. (NFTB) seeks approval of two categories of changes to its collective ratemaking agreement: (1) amendments that appear to be minor;<sup>1</sup> and (2) amendments that are designed to conform to the Board's decisions in *EC-MAC Motor Carrier Service Association, Inc., et al.*, Section 5a Application No. 118 (Sub-No. 2), *et al.* (*EC-MAC*).<sup>2</sup>

The minor amendments proposed by NFTB include: (1) A change in the name of the organization to North American Transportation Council, Inc., with an office located in Ontario, Canada; (2) a non-substantive rewording of the services to be provided by the organization; (3) changes to reflect statutory revisions; (4) a reduction in the quorum required to take action; (5) rates and rules no longer to be discussed at special meetings or annual meetings; (6) membership class of "participating" carriers eliminated (all carriers to be members); (7) new membership class of associate membership for noncarrier entities established; (8) changes in titles of officers; (9) "Rate and Tariff Agreement" provisions to be eliminated as no longer required; (10) changes in "Rate Procedure" provisions so as to eliminate time requirements and other provisions that no longer apply, to reduce notice requirements for meetings, to combine committees, and to eliminate certain provisions governing independent rate action; and (11) changes to eliminate agreements

<sup>1</sup> By application filed on December 14, 1998, in *Niagara Frontier Tariff Bureau, Inc.*, Section 5a Application No. 45 (Sub-No. 16), NFTB applied for renewal of its agreement without change. The minor amendments proposed in the instant proceeding apply to NFTB's renewed agreement.

<sup>2</sup> There, the Board has been considering renewal of the collective ratemaking agreements of NFTB and other bureaus. In decisions served on March 27, 2003, and November 20, 2001, the Board renewed its approval of the bureau agreements, subject to three conditions. First, the bureaus were directed to propose amendment of their agreements to require bureau members to give the truth-in-rates notice described in those decisions when they list rates or otherwise give a rate quote that references a collectively set rate. Second, the bureaus were directed to submit the range-of-discount information specified in the decisions. Third, bureau agreements must require members to certify that they will not apply a loss-of-discount provision that would reinstate the collectively set rate as a penalty for late payment. NFTB's proposed amendments implement these conditions.

with two other bureaus, the Southern Motor Carriers Rate Conference, Inc., and the Rocky Mountain Motor Tariff Bureau, Inc.

The Board tentatively concludes that the amendments are minor and are consistent with the statutory requirements of 49 U.S.C. 13703. Accordingly, these minor amendments will be approved if no adverse comments are timely filed. Because the issues involving the amendments required by the Board in the *EC-MAC* proceeding have been fully addressed in that proceeding, the Board is not seeking comments on them here.

By this notice, the Board is giving the public an opportunity to comment on the minor changes proposed by NFTB. An original and 10 copies of any comments, referring to STB Section 5a Application No. 45 (Amendment No. 17), must be sent to: Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. In addition, one copy of any comments filed with the Board must also be served on applicant's representative: David J. Sirgey, North American Transportation Council, Inc., P.O. Box 548, Buffalo, NY 14225-0548.

NFTB must provide a copy of its application on request to members of the public. A copy of the application, as well as Board decisions and notices, also is available on the Board's Web site at <http://www.stb.dot.gov>.

Comments must be filed with the Surface Transportation Board by November 17, 2003. NFTB's reply to any comments is due by December 1, 2003.

For more information, contact Joseph H. Dettmar, (202) 565-1609. [Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS): 1-800-877-8339.]

Decided: October 9, 2003.

By the Board, Chairman Nober.

**Vernon A. Williams,**

*Secretary.*
