

adverse effects. Conditions of registration include (a) analyses of 5 batches at production, (b) confirmation by high performance liquid chromatography (HPLC) that the strain does not produce aflatoxin, (c) polymerase chain reaction (PCR) analyses of the active ingredient to confirm product identity, and (d) efficacy (product performance) data to demonstrate the reduction of toxigenic strains by *Aspergillus flavus* AF36 in Texas. These data must be submitted within 30 months of the conditional registration date. Additional data will be required to support application of the pesticide to cotton in other states or to other food/feed commodities. An exemption from tolerance for residues of *Aspergillus flavus* AF36 on cotton was established in association with this conditional registration.
