

5. *Project Evaluation*: The proposal should include a plan to evaluate the success of the IATP. ECA recommends that the proposal include a draft survey questionnaire or other technique, plus a description of methodologies that can be used to link outcomes to original project objectives. The applicant organization will be expected to submit periodic progress reports that elucidate the successes achieved, and obstacles encountered, by the IATP.

6. *Cost-Effectiveness and Cost Sharing*: The overhead and administrative components of the proposal, including salaries and honoraria, should be kept as low as possible. All other items should be necessary and appropriate. The proposal should maximize cost sharing through other private sector support as well as institutional direct funding contributions.

7. *Follow-on and Sustainability*: The proposal should provide a plan for continued follow-on activity that ensures that ECA-supported programs are not isolated events, but have meaning and scope beyond the time the actual exchange took place. The proposal should address the feasibility of sustaining viable IATP sites and training seminars after ECA funding ends.
