Nonpoint Source Program and Grants Guidelines for States and Territories

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: EPA has developed guidelines for States' implementation of nonpoint source management programs under Section 319 of the Clean Water Act and for the award of Section 319 grants to

States to implement those programs. These guidelines apply to grants appropriated by Congress in Fiscal Year 2004 and in subsequent years. The guidelines continue EPA's policy of focusing a significant portion of Section 319 funds (\$100 million annually) to address watersheds where nonpoint source pollution has resulted in impairment of water quality. The remaining funds are to be used by States to assist in their implementation of their broad array of programs and authorities to address all of the water quality threats and impairments caused by nonpoint source pollution.

DATES: The guidelines are effective October 23, 2003.

ADDRESSES: Persons requesting additional information should contact Romell Nandi at (202) 566-1203; nandi.romell@epa.gov; or U.S. Environmental Protection Agency (4503T), 1200 Pennsylvania Avenue, NW, Washington, DC 20460. The complete text of today's guidelines is also available at EPA's Nonpoint Source Web site: <http://www.epa.gov/owow/nps/cwact.html>.

Dated: October 7, 2003.

Diane Regas,

Director, Office of Wetlands, Oceans, and Watersheds.

Preface

These guidelines are built upon and replace the *Nonpoint Source Program and Grants Guidance for Fiscal Year 1997 and Future Years* (May 1996), as well as all of the supplemental annual nonpoint source guidances and guidelines that have been published subsequently. The May 1996 guidance was developed collaboratively in a series of highly productive meetings between key representatives of the U.S. Environmental Protection Agency (EPA) and senior representatives of State nonpoint source agencies from each of the ten EPA Regions. The guidance was endorsed by the President of the Association of State and Interstate Water Pollution Control Administrators (ASIWPCA) as well as by the State Co-Chair of the State/EPA Nonpoint Source Program Workgroup in a Forward which stated, "This guidance represents a sound framework for setting the future course of the nonpoint source program."

Nonpoint source pollution continues to be, and is increasingly recognized by the public as, the largest remaining source of water quality impairments in the nation. State and Territory (hereinafter collectively referred to as "State") nonpoint source programs, originally developed and approved under Section 319 of the Clean Water
