

25327 (May 12, 2003). This deposit rate shall remain in effect until publication of the final results of the next administrative review in which SDK and SDEL participate.

Public Comment

Any interested party may request a hearing within 30 days of publication of this notice. 19 CFR 351.310 (c)(2003). Any hearing, if requested, will be held 44 days after the date of publication of this notice, or the first working day thereafter. Interested parties may submit case briefs and/or written comments not later than 30 days after the date of publication of this notice. 19 CFR 351.309(c)(ii)(2003). Rebuttal briefs, which must be limited to issues raised in such briefs or comments, may be filed not later than 37 days after the date of publication of this notice. See 19 CFR 351.309(d)(2003). Parties who submit arguments are requested to submit with the argument (1) a statement of the issue, (2) a brief summary of the argument, and (3) a table of authorities.

Consistent with section 351.216(e) of the Department's regulations, we will issue the final results of this changed circumstances review no later than 270 days after the date on which this review was initiated.

This notice is in accordance with sections 751(b) and 777(i)(1) of the Tariff Act of 1930, as amended, and section 351.221(c)(3)(i)(2003) of the Department's regulations.

Dated: October 17, 2003.

James J. Jochum,

Assistant Secretary for Import Administration.

Certain Stainless Steel Butt-Weld Pipe Fittings from Taiwan: Extension of Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit for final results of antidumping duty administrative review.

SUMMARY: The Department of Commerce ("the Department") is extending the time limit for the final results of the review of stainless steel butt-weld pipe fittings from Taiwan. This review covers

the period June 1, 2001 through May 31, 2002.

EFFECTIVE DATE: October 24, 2003.

FOR FURTHER INFORMATION CONTACT: Jon Freed, Enforcement Group III--Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-3818.

Background

On July 8, 2003, the Department published the preliminary results of the administrative review of the antidumping duty order on stainless steel butt-weld pipe fittings from Taiwan. See *Certain Stainless Steel Butt-Weld Pipe Fittings From Taiwan: Preliminary Results of Antidumping Duty Administrative Review and Notice of Intent to Rescind in Part*, 68 FR 40637 (July 8, 2003). The final results of this administrative review are currently due no later than November 5, 2003.

Extension of Time Limit for Final Results

Section 751(a)(3)(A) of the Act states that if it is not practicable to complete the review within the time specified, the administering authority may extend the 120-day period, following the date of publication of the preliminary results, to issue its final results by an additional 60 days. Completion of the final results within the 120-day period is not practicable for the following reasons: (1) this review involves certain complex Constructed Export Price ("CEP") adjustments including, but not limited to CEP profit and CEP offset; and (2) this review involves a complex affiliation issue.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for issuing the final results of review by 35 days until no later than December 10, 2003.

Dated: October 17, 2003.

Barbara E. Tillman,

Acting Deputy Assistant Secretary for Import Administration, Group III.

National Oceanic and Atmospheric Administration

[I.D. 100903B]

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability and request for comment.

SUMMARY: Notice is hereby given that NMFS has prepared a draft Environmental Assessment (EA) under the National Environmental Policy Act (NEPA) of the potential effects of approval of a Fishery Management and Evaluation Plan (FMEP) submitted by the Oregon Department of Fish and Wildlife (ODFW) for a coho salmon fishery in Siltcoos and Tahkenitch Lakes, located south of the town of Florence along the Oregon Coast. The objectives of the FMEP are to provide some fishing opportunity in years when coho salmon returns are high and in a manner that does not affect the viability of the local coho population and the Oregon Coast Evolutionarily Significant Unit (ESU) as a whole. This document serves to notify the public of the availability of the draft EA for public comment before a final decision on whether to issue a Finding of No Significant Impact is made by NMFS.

DATES: Written comments on the draft EA must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific daylight time on November 10, 2003.

ADDRESSES: Written comments and requests for copies of the draft EA and ODFW's FMEP should be addressed to Lance Kruzic, Salmon Recovery Division, 2900 N.W. Stewart Parkway, Roseburg, OR 97470 or faxed to (541) 957-3381. The documents are also available on the Internet at <http://www.nwr.noaa.gov/1fmep/fmepsbmt.htm>. Comments will not be accepted if submitted via e-mail or the Internet.

FOR FURTHER INFORMATION CONTACT: Lance Kruzic, Roseburg, OR, at phone number (541) 957-3381 or e-mail: lance.kruzic@noaa.gov.

SUPPLEMENTARY INFORMATION: This notice is relevant to the Oregon Coast coho salmon (*Oncorhynchus kisutch*) Evolutionarily Significant Unit.

Background

The ODFW has submitted to NMFS a FMEP for a recreational fishery in Siltcoos and Tahkenitch Lakes, located along the Oregon Coast. As specified in the July 10, 2000, Endangered Species Act 4(d) rule for salmon and steelhead (65 FR 42422), NMFS may approve an FMEP if it meets criteria set forth in § 223.203 (b)(4)(i)(A) through (I). Prior to final approval of an FMEP, NMFS must publish notification announcing its availability for public review and

comment. The notice of availability of this FMEP was published on August 29, 2003 (68 FR 51995). The comment period closed on September 29, 2003.

NEPA requires Federal agencies to conduct an environmental analysis of their proposed actions to determine if the actions may affect the human environment. The proposed action is to approve the FMEP submitted by the ODFW. The proposed coho salmon fishery would occur in Siltcoos and Tahkenitch Lakes in years when returns are high and expected to exceed specified spawning escapement guidelines. In the draft EA currently available for public comment, NMFS considered the effects of this action on the physical, biological, and socioeconomic environments. NMFS is seeking public input on the scope of the required NEPA analysis, including the range of reasonable alternatives and associated impacts of any alternatives.

Dated: October 20, 2003.

Phil Williams,

Acting Director, Office of Protected Resources, National Marine Fisheries Service.

[I.D. 073003D]

Taking Marine Mammals Incidental to Specified Activities; Oceanographic Surveys in the Eastern Tropical Pacific Ocean

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of issuance of an incidental harassment authorization.

SUMMARY: In accordance with provisions of the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that an Incidental Harassment Authorization (IHA) to take small numbers of marine mammals, by harassment, incidental to conducting oceanographic surveys in the Eastern Tropical Pacific Ocean (ETP), has been issued to the Scripps Institution of Oceanography (SIO).

DATES: Effective from September 27, 2003, through September 26, 2004.

ADDRESSES: The application, a list of references used in this document, and the IHA are available by writing to the Acting Chief, Marine Mammal Conservation Division, Office of

Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910-3225, or by telephoning the contact listed here.

FOR FURTHER INFORMATION CONTACT: Sarah C. Hagedorn, Office of Protected Resources, NMFS, (301) 713-2322, ext 117.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

Permission may be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses and that the permissible methods of taking and requirements pertaining to the monitoring and reporting of such takings are set forth. NMFS has defined "negligible impact" in 50 CFR 216.103 as "...an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."

Subsection 101(a)(5)(D) of the MMPA established an expedited process by which citizens of the United States can apply for an authorization to incidentally take small numbers of marine mammals by harassment. Under section 3(18)(A), the MMPA defines "harassment" as:

...any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild; or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering.

The term "Level A harassment" means harassment described in subparagraph (A)(i). The term "Level B harassment" means harassment described in subparagraph (A)(ii).

Subsection 101(a)(5)(D) establishes a 45-day time limit for NMFS review of an application followed by a 30-day

public notice and comment period on any proposed authorizations for the incidental harassment of small numbers of marine mammals. Within 45 days of the close of the comment period, NMFS must either issue or deny issuance of the authorization.

Summary of Request

On June 16, 2003, NMFS received an application from SIO for the taking, by harassment, of several species of marine mammals incidental to conducting a seismic survey program in international waters of the ETP and in the Exclusive Economic Zones (EEZ) of several coastal states (Mexico, Costa Rica, Panama, Columbia, Ecuador, and Peru), from which permission to conduct this type of scientific research has been requested. SIO's *R/V Roger Revelle* is scheduled to undertake a multidisciplinary research cruise, including some seismic reflection profiling and echo-sounding studies, in the ETP from September 2003 to February 2004, primarily 100-400 nautical miles (nm) (185 - 741 km) west of northern Peru and 200-1000 nm (370 - 1852 km) west of the Galapagos Islands. None of these operations would be in U.S. territorial waters or in the U.S. EEZ. A low-energy seismic reflection profiler with a small airgun sound source will be used on 3 of the 8 legs of the cruise. The purpose of this survey is to study the shape and structure of the sediment-buried oceanic crust in this part of the ETP.

Description of the Activity

SIO's seismic surveys will involve one vessel, the *R/V Roger Revelle* (under a cooperative agreement with the U.S. Navy, owner of the vessel). The *Roger Revelle* will deploy two airguns as an energy source, plus a single short (300 m or 984 ft) towed streamer of hydrophones to receive the returning acoustic signals, that can be retrieved and deployed in less than 20 minutes.

The bubble-generating chambers of the two small General-Injector (GI) airguns have a combined volume of 90 cubic inches (1475 cubic centimeters (cc)), contrasting with 3000-9000 cubic inches (49,161-147,484 cc) of the large gun arrays typical of academic and commercial seismic surveys. The primary seismic pulse is produced by a 45-in³ (737 cc) generator chamber, while compressed air from a 105-in³ (1721 cc) injector chamber is used to maintain the shape of the bubble and reduce its sound-making oscillation. The pair of simultaneously fired airguns would have a peak-to-peak (p-p) amplitude of 236 dB re 1 microPa. In addition, a hull-mounted mid-frequency
