**Amendment to the International Traffic
In Arms Regulations: Mandatory
Electronic Filing of Shipper's Export
Declarations With U.S. Customs Using
the Automated Export System (AES)**

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: This amendment to the
International Traffic in Arms
Regulations (ITAR) implements the
Congressional requirement of the Arms
Export Control Act (AECA) for exporters
of U.S. Munitions List (USML) articles
to provide to the Department of State a
report containing all shipment
information, to include a description of
the item, quantity, value, port of exit,
end user and country of destination of
the item; and, the Congressional
mandate in Public Law 106-113 that
amended Section 301, of Title 13 of the
U.S. Code authorizing the Secretary of
Commerce to require the mandatory
electronic filing of export information
through the Automated Export System
(AES) for items identified in the
Commerce Control List (CCL) and the
Department of State's U.S. Munitions
List (USML) that require a Shipper's
Export Declaration (SED). In
implementing these mandates it was
determined that for shipments requiring
a SED the use of the AES system by the
Department of State would be the least
burdensome to the exporting
community. Also, adoption of the AES
system by the State Department will be
economically beneficial to the USG and
provide information on exports of
defense articles using a U.S. Port in a
more timely, consistent and accurate
manner. It will also serve to improve the
quality, timeliness and consistency of
Congressionally mandated reports.

EFFECTIVE DATE: October 27, 2003.

are invited to submit written comments
