Title: Inspection Brake System Safety Standards For Freight and Other Non-Passenger Trains and Equipment (Power Brakes and Drawbars).

OMB Control Number: 2130-0008.

Type of Request: Extension of a currently approved collection.

Affected Public: Businesses.

Form(s): N/A.

Abstract: Section 7 of the Rail Safety Enforcement and Review Act of 1992, Public Law 102-365, amended section 202 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 421, 431 *et seq.*), empowered the Secretary of Transportation to conduct a review of the Department's rules with respect to railroad power brakes and, where applicable, prescribe standards regarding dynamic brake equipment. In keeping with the Secretary's mandate and the authority delegated from him to the FRA Administrator, FRA recently published a comprehensive regulatory revision of the then current requirements related to the inspection, testing, and maintenance of the brake equipment used in freight car operations. The Final Rule focused solely on freight and other non-passenger trains, and codified and solidified the maintenance requirements related to the power brake system and its components. The collection of information is used by FRA to monitor and enforce safety requirements related to power brakes on freight cars. The collection of information is also used by locomotive engineers and road crews to

verify that the terminal air brake test has been performed in a satisfactory manner.

Annual Estimated Burden Hours: 895,011.

Title: Regional Inspection Point Listing Forms.

OMB Control Number: 2130-0551.

Type of Request: Extension of a currently approved collection.

Affected Public: State Rail Safety Inspectors.

Form Number(s): FRA F 6180.106(a)-(e).

Abstract: Through a direct comparison of inspection data with accident/incident data, the collection of information aims to develop a profile county-by-county of what there is to inspect, and how much inspection activity was done by Federal and State railroad inspectors each year nationwide. The information collected will produce "snapshots" which will allow FRA to determine where the gaps are in inspection territories so that it can focus inspection resources where they will do the most good. As a result of the collection of information, FRA will be better able to equalize inspector workloads, and will be better able to make informed hiring decisions regarding the most effective placement of new inspectors. More targeted inspections will permit FRA to maximize its limited resources, and will serve to enhance overall safety on the nation's rail system.

Annual Estimated Burden Hours: 584.

Addressee: Send comments regarding these information collections to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street, NW., Washington, DC 20503; **Attention:** FRA Desk Officer.

Comments are invited on the following: Whether the proposed collections of information are necessary for the proper performance of the functions of FRA, including whether the information will have practical utility; the accuracy of FRA's estimates of the burden of the proposed information collections; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collections of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

Authority: 44 U.S.C. 3501-3520.

Issued in Washington, DC, on October 23, 2003.

Kathy A. Weiner,

Director, Office of Information Technology and Support Systems, Federal Railroad Administration.

Surface Transportation Board

[STB Finance Docket No. 34396]

Norfolk Southern Railway Company—Corporate Family Transaction Exemption—Atlantic and East Carolina Railway Company

Norfolk Southern Railway Company (NSR)¹ and Atlantic and East Carolina Railway Company (AEC),² have filed a verified notice of exemption under the Board's corporate family class exemption at 49 CFR 1180.2(d)(3) to merge AEC into NSR, with NSR as the surviving entity. Under the agreement and plan of merger, all of AEC's assets, rights, obligations and responsibilities will be in the name of NSR.

Although the parties state that the transaction was scheduled to be consummated on or as soon as practicable after August 31, 2003, the earliest the transaction could be consummated was October 6, 2003 (7 days after filing under 49 CFR 1180.4(g)).

The purpose of the transaction is to eliminate AEC as a separate corporate entity, thereby furthering the goal of corporate simplification. It is anticipated that this action will eliminate costs associated with separate accounting, tax, bookkeeping and reporting functions.

This is a transaction within a corporate family of the type specifically exempted from prior review and approval under 49 CFR 1180.2(d)(3). The parties state that the transaction will not result in adverse changes in service levels, significant operational changes, or a change in the competitive balance with carriers outside the corporate family.

As a condition to the use of this exemption, any employees adversely affected by this transaction will be protected by the conditions set forth in

¹ NSR is a Class I carrier; together with its railroad subsidiaries, it owns or operates approximately 21,500 miles of railroad located in 22 states, the District of Columbia, and the Province of Ontario, Canada. NSR is controlled through stock ownership by Norfolk Southern Corporation, a noncarrier holding company.

² AEC has been controlled by NSR or its predecessors through stock ownership since 1989.

New York Dock Ry.—Control—Brooklyn Eastern Dist., 360 I.C.C. 60 (1979).

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34396 must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Maquiling B. Parkerson, Norfolk Southern Corporation, Three Commercial Place, Norfolk, VA 23510-9241.

Through the NACA Program, the Fund provides (i) FA and/or TA awards to Native American CDFIs and entities that can be certified as Native American CDFIs at time of award; and (ii) TA awards to entities that propose to become Native American CDFIs within two years and "Sponsoring Entities" (e.g., Native American organizations, Tribes, Tribal organizations) that propose to create separate legal entities
