AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent.

SUMMARY: This notice advises the public that the U.S. Fish and Wildlife Service (Service) intends to gather information necessary to prepare Comprehensive Conservation Plans (CCP) and Environmental Assessments (EA) pursuant to the National Environmental Policy Act (NEPA) and its implementing regulations, for the following National Wildlife Refuges: Mingo NWR in Wayne and Stoddard Counties, Missouri, Pilot Knob NWR in Iron County, Missouri and Ozark Cavefish NWR in Lawrence County, Missouri, which are managed by Mingo NWR staff and Patoka River NWR in Gibson and Pike Counties, Indiana.

The Service is furnishing this notice in compliance with the National Wildlife Refuge System Administration Act of 1966, as amended (16 U.S.C. 668dd *et seq.*), to achieve the following:

1. Advise other agencies and the public of our intentions; and

Open house style meetings and focus group meetings will be held during the scoping phase of the CCP development process.

In addition, the Service is inviting comments on archeological, historic, and traditional cultural sites in

accordance with the National Historic Preservation Act. Cultural resource overview studies will be conducted to identify known historic and cultural sites on the refuges.

Special mailings, newspaper articles, and other media announcements will inform people of the opportunities for written input throughout the CCP planning process.

DATES: We estimate that the draft environmental documents will be available in 2005.
