Needs and Uses: Following the D.C. Circuit's decision in *MD/DC/DE Broadcasters Association v. FCC* ("Association") in January 2001, vacating the FCC's broadcast EEO rules for recruitment, on January 31, 2001, the Commission suspended its EEO program requirements for both broadcasters and Multichannel Video Programming Distributors (MVPD's), including the requirement to file FCC Forms 395-A and 395-M. The FCC is now revising Form 395-A, Annual Employment Report, to incorporate FCC Form 395-M. The new FCC Form 395-A is a data collection device used to

report industry trends. The report identifies employees by gender, race, and ethnicity in fifteen job categories. The FCC Form 395-A contains a grid which collects data on full and part-time employees and requests a list of employees by job title, indicating the job category and full or part-time status of the position. However, Form 395-A omits the old EEO program report section, which is now in the new FCC Form 396-C, OMB Control No. 3060-1033.

OMB Control Number: 3060-0390.

It is filed by all AM, FM, TV, international and low power TV broadcast licensees/permittees that employ five or more full-time employees. The FCC staff use the data to compile a report showing the five-year employment trends in the broadcast industry.

OMB Control Number: 3060-1034.

Title: Digital Audio Broadcasting Systems and Their Impact on the Terrestrial Radio Broadcast Service Broadcast Station Annual Employment Report.

Form Number: N/A.

Needs and Uses: In October 2002, the Commission released the First Report and Order ("Order"), Digital Audio Broadcasting Systems and Their Impact on the Terrestrial Radio Broadcast Service, FCC 02-286, MM Docket 99-325, (67 FR 78193). Pursuant to this Order, the Commission selected in-band, on-channel (IBOC) as the technology that permits AM and FM

radio broadcasters to introduce digital operations efficiently and rapidly. In addition, provisions of the Order required radio station licensees to provide information relative to implementation of interim hybrid digital operations. Implementation of hybrid digital operations is entirely voluntary. Commercial and noncommercial AM and FM radio stations that choose to begin hybrid digital transmissions shall notify the Commission within 10 days of the commencement of digital operations. The notification letter shall certify that the digital operations conform to applicable rule and standards. Furthermore, implementation of the notification letter eliminates both the need for the FCC staff to issue an STA to the broadcaster and for the broadcaster to file and pay the initial and any subsequent filing fees.
