DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Energy Conservation Program for Consumer Products: Granting of the Application for Interim Waiver and Publishing of the Petition for Waiver of Fisher & Paykel Appliances Limited From the DOE Clothes Washer Test Procedure

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver and solicitation of comments.

SUMMARY: Today's notice grants an Interim Waiver to Fisher & Paykel Appliances Limited (Fisher & Paykel), publishes Fisher & Paykel's Petition for Waiver from the existing Department of Energy (DOE or Department) clothes washer test procedure for its IW model clothes washer which has an adaptive control system, and seeks comment on that Petition for Waiver. The DOE clothes washer test procedure requires manufacturers of non-conventional clothes washers with adaptive control systems other than adaptive water fill control systems to seek such a waiver.

Fisher & Paykel seeks a waiver because its clothes washer model IW has an adaptive control system with two sensing modes, water level sensing and fabric sensing, to assess the type of load in the washer. This model does not have the conventional "normal" cycle used by the DOE clothes washer test procedure set forth in 10 CFR part 430, subpart B, appendix J, or the energy test cycle for washing cotton or linen clothes used in Appendix J1. Instead, Fisher & Paykel seeks to test the washer by determining a cycle that is equivalent to the normal cycle and the energy test cycle. The company proposes to test the default cycle that begins when a user pushes the power button to start the washer. This default cycle is the midpoint of the five settings controlled by the washer's "How Dirty" button, setting three. This waiver seeks only to confirm which test cycle to use. Fisher & Paykel will then follow the remaining steps of the existing test procedure to determine the energy consumption of the clothes washer. The Department is soliciting comments, data, and information regarding the Petition for Waiver.

DATES: The Department will accept comments, data, and information regarding this Petition for Waiver not later than December 8, 2003.
