Regulatory History

This request constitutes the 30-day notice required by OIRA. The Coast Guard has already published [68 FR 45833 (August 4, 2003)] the 60-day notice required by OIRA. That notice elicited no comments.

Request for Comments

The Coast Guard invites comments on the proposed collections of information to determine whether the collections are necessary for the proper performance of the functions of the Department. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the collections;

(2) the accuracy of the Department's estimated burden of the collections; (3) ways to enhance the quality, utility, and clarity of the information that is the subject of the collections; and (4) ways to minimize the burden of collection on respondents, including the use of automated collection techniques or other forms of information technology.

Comments, to DMS or OIRA, must contain the OMB Control Number of the ICR addressed. Comments to DMS must contain the docket number of this request, USCG 2003-15778. Comments to OIRA are best assured of having their full effect if OIRA receives them 30 or fewer days after the publication of this request.

Information Collection Request

1. **Title:** Barge Fleeting Facility Records.

OMB Control Number: 1625-0023.

Type of Request: Extension of a currently approved collection.

Affected Public: Operators of barge fleeting facilities.

Form: This collection of information does not require the public to fill out forms, but does require barge facilities to keep records of daily inspections.

Abstract: This collection of information requires the person-in-charge of a barge fleeting facility to keep records of twice daily inspections of barge moorings and movements of barges and hazardous cargo in and out of the facility.

Annual Estimated Burden Hours: The estimated burden is 32,092 hours a year.

2. **Title:** Various International Agreement Safety Certificates and Documents.

OMB Control Number: 1625-0017.

Type of Request: Extension of a currently approved collection.

Affected Public: Owners and operators of vessels.

Form: CG-967, CG-968, CG-968A, CG-969, CG-3347, CG-3347B, CG-4359, CG-5643, CG-5679, CG-5679A, CG-5680.

Abstract: This collection of information accounts for 11 certificates and documents associated with the International Convention for Safety of Life at Sea, 1974 (SOLAS). Each of certain U.S.-flag vessels on international voyages needs one or more of these certificates or documents to demonstrate compliance with SOLAS. Without proper certificates and documents, such a vessel could find itself detained in a foreign port. The certificates and documents associated with this collection issue primarily to deep-draft vessels, and thus the annual hour-burden estimated below is relatively small for these requirements of

recordkeeping—which in practice is just posting. The factors that result in the relatively small burden are (a) the limited number of vessels in the affected population; (b) the brief amount of time, no more than five minutes for any certificate or document, necessary for this posting; and (c) the limited frequency with which these certificates and documents issue—many only once in five years.

Annual Estimated Burden Hours: The estimated burden is 16 hours a year.

3. *Title:* Outer Continental Shelf (OCS) Activities—Title 33 CFR Subchapter N.

OMB Control Number: 1625–0044.

Type of Request: Extension of a currently approved collection.

Affected Public: Operators of facilities and vessels engaged in activities on the OCS.

Form: CG–5432.

Abstract: The information is needed to ensure compliance with the safety regulations related to OCS activities. The regulations include reporting and recordkeeping requirements for annual inspections of fixed OCS facilities, employee citizenship records, station bills, and emergency evacuation plans.

Annual Estimated Burden Hours: The estimated burden is 5,767 hours a year.

4. *Title:* Regattas and Marine Parades.

OMB Control Number: 1625–0008.

Type of Request: Extension of a currently approved collection.

Affected Public: Sponsors of marine events.

Form: This collection of information does not require the public to fill out forms, but does require the submittal of information to the Coast Guard in written or electronic format.

Abstract: The Coast Guard needs to determine whether a marine event may present a substantial threat to the safety of human life on navigable waters and which measures are needed to ensure the safety of life during the events. The requirement for sponsors of these events to provide specific information on their events is an efficient means for the Coast Guard to learn of the events and to address environmental impacts of events requiring permits.

Annual Estimated Burden Hours: The estimated burden is 3,000 hours a year.

Dated: November 7, 2003.

Clifford I. Pearson,

Assistant Commandant for Command, Control, Communications, Computers and Information Technology.
