1. On May 14, 2003, 452 letters were mailed to all licensees operating in the QT, QD, and QO radio services inquiring into the operational status of each license held. Each licensee was required to respond and certify, by June 13, 2003, that its authorized station(s) had not permanently discontinued service (*i.e.*, discontinued operations for one year or more). The audit letter, mailed to each licensee at its address of record, included the call signs of the licensee's authorizations involved in this audit. In addition, the Bureau released an initial *Public Notice*, 68 FR 19822, April 22, 2003 announcing the audit, as well as several follow-up *Public Notices*, 68 FR 31704, May 28, 2003 and 68 FR 41133, July 10, 2003 explaining that the audit was underway and setting forth the audit process.

2. In the audit letters that were mailed to the individual licensees, as well as in the Bureau's Public Notices, the Bureau expressly indicated that a response to the audit letter was mandatory. The Bureau also indicated that failure to provide a timely response might result in the Commission's presumption that station at issue was non-operational for one year or more and therefore automatically cancelled. The Bureau's second audit letter explicitly stated that failure to timely respond to the audit letter would result in the loss of the licensee's authority to operate on the station(s) at issue in the audit letter. The Bureau has received no response to either of the audit letters for the station licenses that are set forth in Attachment A of the *Public Notice*. The Bureau

therefore presumes that the stations identified in Attachment A have been non-operational for a period of one year or more, and confirms that these station licenses have cancelled automatically pursuant to 47 CFR 90.157 of the Commission's rules. Action has been taken in the Universal Licensing System to terminate these licenses.
