SUPPLEMENTARY INFORMATION: The King County Department of Development and Environmental Services (DDES), acting under authority of section 104(g) of the Housing and Community Development Act of 1974 (42 U.S.C. 5304(g)) and HUD's regulations at 24 CFR part 58, in cooperation with other interested agencies, has prepared a Draft EIS to analyze potential impacts of redevelopment of the Park Lake Homes public housing community (Greenbridge Redevelopment Project-Proposed Master Plan). The Draft EIS is a joint National Environmental Policy Act (NEPA) and Washington State Environmental Policy Act (SEPA) document intended to satisfy requirements of federal and state environmental statutes. HUD has allowed the assumption of its NEPA authority and NEPA lead agency responsibility by the King County (DDES) as the Responsible Entity in cooperation with the Recipient, King County Housing Authority (KCHA), as the SEPA lead agency.

Park Lake Homes is KCHA's oldest and largest public housing development. Built in 1942 to serve as temporary housing for World War II defense workers, structures have been renovated several times. The KCHA received a HOPE VI grant award from HUD in November 2001, to initiate planning for the revitalization of this public housing development.

The Proposed Master Plan includes redevelopment of the existing approximately 94-acre project site located in the White Center area of unincorporated King County, Washington. The proposed redevelopment is consistent with requirements for a mixed-use, mixed-income housing project as described in the HOPE VI grant. The project site currently contains 569 residential units, a Community Center, a maintenance shop, a Head Start School, and a secondary building containing a food bank and administrative offices. The residential units are in primarily single story duplex structures.

The plan is to replace all existing low-income housing to either within the site or elsewhere in King County, through construction of public housing units on-site and project-based Section 8 vouchers in existing or new housing complexes. Existing residents would be displaced and assisted with benefits according to the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act. Where possible, displaced residents in good standing would be allowed to

return to the public housing units once redevelopment is complete.

Most of the current buildings on the site would be demolished in phases, unless renovation for community services use is feasible. The existing Jim Wiley Community Center building will likely be renovated. In addition, much of the existing infrastructure would be demolished, abandoned, or replaced, also in phases. The project site would be redeveloped to provide approximately 900 to 1,100 dwelling units of rental and for-sale housing, in attached and detached forms, to meet a wide range of needs. Rental housing could include public housing units (attached townhouses, over/under flats, over/under townhouses, cottages) and workforce housing (attached townhouses, over/under flats, over/under townhouses, and apartments). For sale housing could include single family detached, cottages, attached townhouses, condominium flats and condominium townhouses.

An estimated 2,235,000 square feet of net buildable area is associated with the Proposed Master Plan. Non-residential development would include an estimated 80,000–100,000 square feet of community-oriented uses. Such uses may include: a branch library, renovated community center, youth and family facilities, Head Start and child care facility, Sheriff's office, food bank, career development center and meeting/gathering space. Approximately 22,300 square feet of neighborhood-scale retail, to meet the everyday needs of residents, is also proposed. A new elementary school (White Center Heights Elementary) is presently under construction; this is an independent proposal for purposes of land use permitting and SEPA review (although the site is included within the Greenbridge Preliminary Plat). A SEPA Determination of Nonsignificance was published on September 18 and 25, 2002, for the new elementary school.

Questions may be directed to the individual named above under the above heading **FOR FURTHER INFORMATION CONTACT**.
