

under Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), a Negative Determination Regarding Eligibility to Apply for Alternative Trade Adjustment Assistance on October 14, 2003, applicable to workers of Maxxim Medical, Inc., Honea Path, South Carolina. The notice will be published soon in the **Federal Register**.

At the request of a company official, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of surgical gloves.

Company information received during the Department's investigation stated that workers engaged in the production of surgical gloves at the plant possess skills that are easily transferable. New information provided by the company states that workers at the subject firm require skills that are unique to the surgeon glove manufacturing process. Therefore, workers' skills are not easily transferable.

Review of this information shows that all eligibility criteria under Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended have been met.

The amended notice applicable to TA-W-52,959 is hereby issued as follows:

All workers of Maxxim Medical, Inc., Honea Path, South Carolina, who became totally or partially separated from employment on or after September 19, 2002 through October 14, 2005, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974 and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

I. Background

The Employment and Training Administration of the Department of Labor is considering revising the reporting forms that correspond to OMB NO.: 1205-0416 which implements reporting requirements for the Disability Employment Grant Program for the fiscal years 1999 and 2000. Reporting impacts 15 grants for the last two years of a three year grant cycle which began July 1, 1998. The grants are awarded for one year plus two option years. These reports will also be used for similar disability related grants administered by ETA.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's burden estimate for the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

III. Current Actions

The proposed Information Collection Request establishes reporting requirements for this discretionary grant program which is funded under the Workforce Investment Act (WIA) Title I. The Activity and Placement Report (APR) includes information on the number of participants being served, activities and services provided, and planned outcomes.
