

two red grouper (out of the 5 aggregate grouper bag limit). The rebuilding plan also proposed a reduction in the deep-water grouper quota and setting of a tilefish quota in order to discourage effort shifting to those stocks. Because more than one year had passed since the designation of red grouper as overfished, the amendment was submitted as a Secretarial Amendment rather than as a Council Plan Amendment.

NMFS reviewed the plan as submitted by the Gulf Council and made revisions to it. The revisions included retaining the February 15-March 15 commercial closed season, implementing a hard quota on red grouper so that the commercial shallow-water grouper fishery will close when either the red grouper or shallow-water grouper quota is met, whichever comes first, and not implementing a trip limit.

A draft of the revised Secretarial Amendment was reviewed by the SSC at a meeting held October 28-29, 2003. However, the NMFS revisions were not provided to the SSC until just prior to the meeting, and the SSC was unable to review the socioeconomic information contained in the amendment's regulatory impact review section. At the November 9-12, 2003 Council meeting in Biloxi, Mississippi, Council members debated whether it would be less economically disruptive to the commercial shallow-water grouper fishery to have a potential quota closure or a shallow-water grouper trip limit set low enough to prevent a quota closure. Since the Council will have another opportunity to review and comment on Secretarial Amendment 1 at its January 12-16, 2004 meeting in Austin, TX, the Council decided to ask the SSC to reconvene by conference call to evaluate the socioeconomic information in the amendment, with particular emphasis on the economic impacts of trip limits vs. closed seasons.

To obtain a copy of Reef Fish Secretarial Amendment 1, contact Phil Steele, NMFS Southeast Regional Office, 9721 Executive Center Drive, North, St. Petersburg, FL 33702; telephone: 727-570-5305, fax: 727-570-5583, e-mail: Phil.Steele@noaa.gov

A copy of the agenda can be obtained by contacting the Council (see addresses above).

Although non-emergency issues not contained in the agenda may come before the AP/SSC for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA), those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in

this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the MSFCMA, provided the public has been notified of the Council's intent to take final action to address the emergency.

The listening stations are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at the Council (see ADDRESSES) by December 5, 2003.

Dated: November 24, 2003.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

Sunshine Act; Notice of Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given of the Defense Nuclear Facilities Safety Board's (Board) meeting described below. The Board will also conduct a series of public hearings pursuant to 42 U.S.C. 2286b and invites any interested persons or groups to present any comments, technical information, or data concerning safety issues related to the matters to be considered.

TIME AND DATE OF MEETING: 9 a.m., December 16, 2003.

PLACE: Defense Nuclear Facilities Safety Board, Public Hearing Room, 625 Indiana Avenue, NW., Suite 300, Washington, DC 20004-2001.

Additionally, as a part of the Board's E-Government initiative, the meeting will be presented live through Internet video streaming. A link to the presentation will be available on the Board's Web site (<http://www.dnfsb.gov>).

STATUS: Open. While the Government in the Sunshine Act does not require that the scheduled discussion be conducted in a meeting, the Board has determined that an open meeting in this specific case furthers the public interests underlying both the Sunshine Act and the Board's enabling legislation.

MATTERS TO BE CONSIDERED: The Board has been reviewing the Department of Energy's (DOE) current oversight and management of the contracts and contractors it relies upon to accomplish the mission assigned to DOE under the Atomic Energy Act of 1954, as amended. We will focus on what impact, if any, DOE's new initiatives may have or might have had upon assuring adequate protection of the health and safety of the public and workers at DOE's defense nuclear facilities. The sixth public meeting will collect information needed to understand and address any health or safety concerns that may require Board action. This will include, but is not limited to, presentations by the National Nuclear Security Administration (NNSA) to explain their contract management and oversight initiatives and possibly further presentations by Board staff.

The Board has identified several key areas that will be examined in public meetings. In the December 16th meeting, the Board will explore in more depth the field application of Federal management and oversight policies being developed by DOE and NNSA for defense nuclear facilities. The Board will hear from NNSA Site Managers and Contractor General Managers. The information gathered will explore Federal contract management and oversight experience and will provide relevant reference experience. The public hearing portion is independently authorized by 42 U.S.C. 2286b.

FOR FURTHER INFORMATION CONTACT:

Kenneth M. Pusateri, General Manager, Defense Nuclear Facilities Safety Board, 625 Indiana Avenue, NW., Suite 700, Washington, DC 20004-2901, (800) 788-4016. This is a toll-free number.

SUPPLEMENTARY INFORMATION: Requests to speak at the hearing may be submitted in writing or by telephone. The Board asks that commentators describe the nature and scope of their oral presentation. Those who contact the Board prior to close of business on December 15, 2003, will be scheduled for time slots, beginning at approximately 11:30 a.m. The Board will post a schedule for those speakers who have contacted the Board before the hearing. The posting will be made at the entrance to the Public Hearing Room at the start the 9 a.m. meeting.

Anyone who wishes to comment or provide technical information or data may do so in writing, either in lieu of, or in addition to, making an oral presentation. The Board Members may question presenters to the extent deemed appropriate. Documents will be accepted at the meeting or may be sent to the Defense Nuclear Facilities Safety Board's Washington, DC office. The Board will hold the record open until January 16, 2004, for the receipt of additional materials. A transcript of the meeting will be made available by the Board for inspection by the public at the Defense Nuclear Facilities Safety Board's Washington office and at DOE's public reading room at the DOE Federal Building, 1000 Independence Avenue, SW., Washington, DC 20585.

The Board specifically reserves its right to further schedule and otherwise regulate the course of the meeting and hearing, to recess, reconvene, postpone, or adjourn the meeting and hearing, conduct further reviews, and otherwise exercise its power under the Atomic Energy Act of 1954, as amended.
