**INTERNATIONAL TRADE
COMMISSION**

[Investigation No. 731-TA-1021 (Final)]

**Malleable Iron Pipe Fittings From
China****Determination**

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (Commission) determines, pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)) (the Act), that an industry in the United States is threatened with material injury by reason of imports from China of malleable iron pipe fittings, provided for in subheading 7307.19.90 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce (Commerce) to be sold in the United States at less than fair value (LTFV).

Background

The Commission instituted this investigation effective October 30, 2002, following receipt of a petition filed with the Commission and Commerce by Anvil International, Inc., Portsmouth, NH, and Ward Manufacturing, Inc., Blossburg, PA. The final phase of the investigation was scheduled by the Commission following notification of a preliminary determination by Commerce that imports of malleable iron pipe fittings from China were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of July 10, 2003 (68 FR 41176). The hearing was held in Washington, DC, on October 23, 2003, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on December

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).
