ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Ventura County Air Pollution Control District (VCAPCD) portion of the California State Implementation Plan (SIP). SUPPLEMENTARY INFORMATION: This proposal addresses the following local rule: VCAPCD 74.20. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Hazardous Materials; Incorporation of Exemptions Into Regulations

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: RSPA proposes to amend the Hazardous Materials Regulations to incorporate into the regulations the provisions of certain widely used exemptions which have established a history of safety and which may be converted into regulations for general use. We are also making minor revisions to the requirements for use of packagings authorized under exemptions. The proposed changes would provide wider access to the benefits of the provisions granted in these exemptions and eliminate the need for the current exemption holders

to reapply for renewal of the exemption, thus reducing paperwork burdens and facilitating commerce while maintaining an acceptable level of safety.
