[Project No. 2009-018; North Carolina/Virginia]

**Virginia Electric Power Company; Notice of Availability of Environmental Assessment**

November 28, 2003.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for license for the Roanoke Rapids and Gaston Hydroelectric Project, located on the Roanoke River in Brunswick and Mecklenburg Counties, Virginia, and Halifax, Northampton and Warren Counties, North Carolina. The project occupies approximately 252 acres of federal land that is administered by the U.S. Army Corps of Engineers.

Commission staff has prepared an Environmental Assessment (EA) for the project. The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission's Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "eLibrary" link.
