

and need for the proposed action and the range of alternatives to be evaluated in detail in the AA/EIS. Depending on the outcome of the scoping process and the analysis of a wide range of transit alternatives, a Locally Preferred Alternative (LPA) will be selected and evaluated in the Draft EIS. The Draft EIS will be prepared simultaneously with conceptual engineering for the alternatives, including station and alignment options. The Draft EIS process will address the potential use of Federal funds for the proposed action, as well as assess the social, economic, and environmental impacts of the station and alignment alternatives. Station designs and any alignment options will be refined to minimize and mitigate any adverse impacts.

After publication, the Draft EIS will be available for public and agency review and comment, and a public hearing will be held. Based on the Draft EIS and comments received, the LPA may be refined, and Valley Metro Rail, Inc. will further assess the LPA in the Final EIS and will apply for FTA approval to initiate Preliminary Engineering of the LPA.
