Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) allow the proposed information collection project: "Medical Expenditure Panel Survey Household Component and Medical Provider Component (MEPS-HC and MEPS-MPC)—2004 and 2005". In accordance with the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)), AHRQ invites the public to comment on this proposed information collection.

This proposed information collection was previously published in the **Federal Register** on October 16, 2003 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment.

DATES: Comments on this notice must be received by January 16, 2004.

ADDRESSES: Written comments should be submitted to: Allison Eydt, Human Resources and Housing Branch, Office of Information and Regulatory Affairs, OMB, New Executive Office Building, Room 10235, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Cynthia D. McMichael, AHRQ, Reports Clearance Officer, (301) 427-1651.

SUPPLEMENTARY INFORMATION:

Proposed Project

"Medical Expenditure Panel Survey Household Component and Medical Provider Component (MEPS-HC and MPC)—2004 and 2005".

The AHRQ intends to conduct an annual panel survey of U.S. households and medical providers to collect information on a variety of measures related to health status, health insurance coverage, health care use and expenditures, and sources of payment for health services. This collection project consists of two parts: the MEPS Household Component (HC) and the MEPS Medical Provider component (MPC).

Each panel of the MEPS-HC consists of a nationally representative sample of U.S. households with a data collection period covering 2½ years.

This time frame allows for the collection of annual data from the MEPS sample that covers their health care experiences over two consecutive calendar years. The first panel of MEPS began in 1996 and a new panel has been initiated annually thereafter. The MEPS-HC is jointly sponsored by the AHRQ and the National Center for Health Statistics (NCHS).

The MEPS-HC will be conducted using a sample of households selected from households which responded to the previous year's National Health Interview Survey (NHIS) sponsored by NCHS. The NHIS is a household survey which collects health data from approximately 50,000 households and 110,000 individuals. The NHIS is used as the sampling frame for the MEPS and several other surveys as part of efforts by the Department of Health and Human Services (DHHS) to integrate survey data collection activities.

Data to be collected from each household include detailed information on demographics, health conditions,

current health status, utilization of health care providers, charges and payments for health care services, quality of care received, medications, employment and health insurance.

The purpose of the MEPS-MPC is to supplement the information provided by household respondents in the MEPS-HC about the use of medical services in the United States based on a nationally representative sample. The MEPS-MPC will be conducted with the permission of members of the households surveyed in the MEPS-HC. The AHRQ contractor will contact the medical providers of the HC Survey respondents to determine the actual dates of service, the diagnoses, the services provided, the amount that was charged, the amount that was paid and the sources of payment. Thus, the MPC is derived from or is based upon the survey, (MEPS-HC). The MPC confirms and/or improves the quality of the core survey data.

Data from household respondents in the MEPS Household Component for calendar year 2004, will be collected, beginning in 2004, and continuing into the year 2005, data for calendar year 2005 will be collected, beginning in 2005, and continuing into the year 2006.

Data from medical providers linked to household respondents in the MEPS Household Component for calendar year 2004, will be collected, beginning in 2005, and continuing into the year 2006, provider data for calendar year 2005 will be collected, beginning in 2006, and continuing into the year 2007.

Data Confidentiality Provisions

MEPS data confidentiality is protected under the AHRQ and NCHS Confidentiality statutes, section 308(d) and section 924(c) of the Public Health Service Act (42 U.S.C. 242m(d) and 42 U.S.C. 299c-(c), respectively).

In accordance with SHRQ and NCHS confidentiality statutes, statistical and non-identifying data will be made available through publications, articles in major journals as well as public use data files. The statistical and analytic data are intended to be used for purposes such as:

- Generating national estimates of individual and family health care use and expenditures, private and public health insurance coverage, and the availability, costs and scope of private health insurance benefits among Americans;
- Examining the effects of changes in how chronic care and disability are managed and finances;
- Evaluating the growing impact of managed care and of enrollment in different types of managed care plans; and,
