BILLING CODE 4710-05-P

DEPARTMENT OF STATE

[Public Notice 4568]

Bureau of Administration; Notice of Availability of Alternative Fueled Vehicle (AFV) Report for Fiscal Year 2003

AGENCY: Department of State.

ACTION: Notice.

SUMMARY: The U.S. Department of State, Bureau of Administration, is issuing this notice in order to comply with the Energy Policy Act of 1992 and 42 U.S.C. 13218(b). The purpose of this notice is to announce the public availability of the Department of State's interim Fiscal Year 2003 report at the following Web site: <http://www.state.gov/m/a/26931.htm>. A final report will be made available upon completion of data collection.

FOR FURTHER INFORMATION CONTACT:

Questions regarding reports on the AFV report Web site should be addressed to the Domestic Fleet Management and Operations Division (A/OPR/GSM/FMO) [Attn: Barry Shpil], 2201 C Street NW (Room B258), Washington, DC 20520, phone 202-647-3628.

Dated: December 9, 2003.

Vincent J. Chaverini,

Deputy Assistant Secretary Office of Operations, Department of State.

BILLING CODE 4710-24-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2003-15642 and FMCSA-2001-11060]

Safety Auditor Certification; Notice of Statutory Compliance Date

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of statutory compliance date.

SUMMARY: The Federal Motor Carrier Safety Administration (FMCSA) gives

notice that after December 31, 2003, all safety inspections, audits, and compliance reviews will be conducted by FMCSA or State employees certified under the Certification of Safety Auditors, Safety Investigators, and Safety Inspectors interim final rule (67 FR 12776, Mar. 19, 2002; 67 FR 41196, Jun. 17, 2002) (commonly referred to as the "Certification rule") or qualified under the grandfather provisions of 49 U.S.C. 31148(b). The Certification rule was one of three interim final rules set aside by the U.S. Court of Appeals for the Ninth Circuit on January 16, 2003, on the grounds that FMCSA failed to comply with statutory environmental impact analysis requirements in developing these regulations. On July 28, 2003, FMCSA notified the public (68 FR 44378) that, as authorized by Sec. 211 of the Motor Carrier Safety Improvement Act of 1999 (MCSIA), the Secretary of Transportation (Secretary) had extended by 12 months the agency's December 31, 2002, statutory deadline for compliance with the safety certification requirements. The extension of the statutory compliance deadline provided FMCSA the necessary time to comply with the court's mandate by preparing an Environmental Assessment (EA) for the Certification rule. The EA concluded that implementation of the Certification rule would have no adverse environmental consequences and, in fact, would likely have a positive, if minimal, impact on the affected environment. On October 2, 2003, the agency issued a notice announcing the EA's availability in the docket and requesting public comment (68 FR 56863). The agency received no comments on the EA. Following the close of the public comment period, FMCSA prepared a Finding of No Significant Impact document for the Certification rule. The Finding of No Significant Impact is attached to the EA in the docket. Compliance with the statutory certification requirement by FMCSA and its State partners will assure the agency's continued fulfillment of its statutory responsibilities to reduce crashes, injuries, and fatalities involving large trucks and buses.

DATES: Compliance with 49 U.S.C. 31148(b) begins January 1, 2004.

FOR FURTHER INFORMATION CONTACT: Mary Pat Woodman, Chief of the Enforcement and Compliance Division (MC-ECE), (202) 366-9699, FMCSA, 400 Seventh Street, SW., Washington, DC 20590.

SUPPLEMENTARY INFORMATION:

Background

Sec. 210 of the Motor Carrier Safety Improvement Act (MCSIA) of 1999 (Pub. L. 106-159, 113 Stat. 1748) directs that all motor carriers (both foreign and domestic) granted new operating authority must undergo a safety audit within 18 months of commencing operations in interstate commerce in the United States [49 U.S.C. 31144(c)(1)]. Sec. 211 of the MCSIA requires that any safety audit conducted after December 31, 2002, be performed by: (1) A motor carrier safety auditor certified under rules established for that purpose, or (2) a Federal or State employee qualified to perform such an audit or review at the time MCSIA was enacted [49 U.S.C. 31148(b)]. The legislation gives the Secretary oversight responsibility for these motor carrier safety auditors and investigators, including the authority to decertify them [49 U.S.C. 31148(e)]. In addition, section 31148(c) authorizes the Secretary to extend (by no more than 12 months) the December 31, 2002, deadline for compliance with the safety certification requirements of MCSIA if it is determined that the rulemaking required by the statute cannot be timely implemented.

As required by Sec. 211, FMCSA published an interim final rule entitled "Certification of Safety Auditors, Safety Investigators, and Safety Inspectors," establishing procedures to certify and maintain certification for safety auditors, inspectors, and investigators (67 FR 12776, Mar. 19, 2002; 67 FR 41196, Jun. 17, 2002). The rule amends 49 CFR parts 350 and 385 to provide for three types of certification, as follows: (1) Certification to conduct safety audits, (2) certification to conduct compliance reviews, and (3) certification to conduct roadside vehicle and driver inspections. The Certification rule took effect on July 17, 2002 (67 FR 41196).

The rule requires certification not only for Federal employees performing safety audits, inspections, and compliance reviews but also for State and local employees conducting these activities under the Motor Carrier Safety Assistance Program (MCSAP). States must certify that safety employees meet minimal Federal standards as a condition of their continued participation in the MCSAP. Federal and MCSAP employees qualified to perform compliance reviews on December 9, 1999, are grandfathered by 49 U.S.C. 31148(b)(2) and are not required to be certified under the rule. The Certification rule extended this grandfather period to include personnel who were fully trained and performing
