### [Public Notice 4576]

#### Finding of No Significant Impact and Summary Environmental Assessment; Valero Logistics LP Pipeline in Webb County, TX

The proposed action is to issue a Presidential Permit to Valero Logistics Operations LP (Valero) to construct,

connect, operate and maintain a 8<sup>5</sup>/<sub>8</sub> inch outer diameter pipeline to convey liquid petroleum gas ("LPG") across the border from Webb County, Texas to the United States of Mexico. On behalf of Valero, URS Corporation of Austin, Texas, prepared a draft environmental assessment under the guidance and supervision of the Department of State (the "Department"). The Department placed a notice in the **Federal Register** (68 FR 44560 (July 29, 2003)) regarding the availability for inspection of Valero's Permit application and the draft environmental assessment.

Numerous Federal and state agencies independently reviewed the draft environmental assessment. They include: the United States Section of the International Boundary and Water Commission, the Department of Transportation, the Department of the Interior, the U.S. Fish and Wildlife Service, the Environmental Protection Agency, the Federal Emergency Management Administration, the U.S. Department of Homeland Security, the Department of Defense, the Department of Commerce, the Council on Environmental Quality, the Texas Railroad Commission, the Texas Historical Commission, the Texas Parks and Wildlife Department, and the Texas Commission on Environmental Quality. Prior to publishing the notice, Valero hosted a public meeting on the behalf of the Department of State, where public input on the project was received. No formal written public comments were submitted on the draft environmental assessment.

Comments received from the Federal and state agencies and the public were either responded to directly, or addressed directly by incorporation into the analysis contained in the draft environmental assessment. In addition to inclusion in the analyses of impacts and risks, comments were used to develop measures to be undertaken by Valero to prevent or mitigate potentially adverse environmental impacts, which were included as commitments.

This summary environmental assessment, comments submitted by the Federal and state agencies and the public, responses to those comments, and the draft environmental assessment, as amended, together constitute the Final Environmental Assessment of the proposed action by the Department.

#### Summary of the Environmental Assessment

##### I. The Proposed Project
