Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443–7978.

Substance Abuse Prevention and Treatment Block Grant Regulations—45 CFR Part 96 (OMB No. 0930–0163; Extension, no change)

These regulations provide guidance to States regarding the Substance Abuse Prevention and Treatment Block Grant legislation, including the information collection requirements regarding the sale or distribution of tobacco products to individuals under age eighteen. The rule implements the reporting and recordkeeping requirements of 42 U.S.C. 300x21–35 and 51–64 by specifying the content of the States’ annual reports on and application for block grant funds. The reporting burden hours are counted towards the total burden for the Substance Abuse Prevention and Treatment Block Grant Application Format (OMB No. 0930–0080) and the Substance Abuse Prevention and Treatment Block Grant Synar Report Format (OMB No. 0930–0222) for which separate approval is obtained. The total annual reporting and recordkeeping burden estimate is shown below:

¹ There was a one-time burden associated with change of the due date for the annual report effective with the FY 2001 application.

² This is a requirement to report on activities to implement SAMHSA's charitable choice legislation and regulations promulgated in September 2003 at 42 CFR part 54; information collection language for this requirement is approved under OMB control number 0930-0242.

³ This section describes Synar requirements for the first applicable year, which has passed for all States. Therefore, no burden is associated with this section.

⁴ The number of respondents per year for the waiver requests is based on actual experience over the past several years.

⁵ All reporting burden associated with the annual reports, state plan, and waivers is approved under OMB control numbers 0930-0080 and 0930-0242. Only the information collection language in the regulation and the recordkeeping burden are approved under OMB control number 0930-0163.

⁶ Synar reporting requirements do not pertain to the Red Lake Band of the Chippewa Indians of Minnesota and thus have 59 rather than 60 respondents.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.

Dated: December 30, 2003.

Anna Marsh,

Acting Executive Officer, SAMHSA.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; 90-day Finding for a Petition To List the Eastern Subspecies of the Greater Sage-Grouse as Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition finding.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 90-day finding for a petition to list the eastern subspecies of the greater sage-

grouse (*Centrocercus urophasianus urophasianus*) as endangered under the Endangered Species Act of 1973, as amended. We find that the petition does not present substantial scientific or commercial information indicating that listing this subspecies may be warranted. This finding is based on our determination that there is a lack of evidence to indicate that the eastern sage-grouse is a valid subspecies, and our determination that the eastern population of sage-grouse does not constitute a Distinct Population Segment (DPS). We will not be initiating a further status review in response to this petition. We ask the public to submit to us any new information that becomes available concerning the status of the species or threats to it. This information will help us monitor and encourage the conservation of the species.

DATES: The finding announced in this document was made on January 2, 2004. You may submit new information concerning this species for our consideration at any time.

ADDRESSES: The complete file for this finding is available for inspection, during normal business hours, at the Wyoming Ecological Services Field Office, U.S. Fish and Wildlife Service, 4000 Airport Parkway, Cheyenne, Wyoming 82001. Submit new information, materials, comments, or questions concerning this taxon to the Service at the above address.

FOR FURTHER INFORMATION CONTACT:

Brian T. Kelly, at the address given in the **ADDRESSES** section (telephone 307-772-2374; facsimile 307-772-2358).

SUPPLEMENTARY INFORMATION:

Background

Section 4(b)(3)(A) of the Endangered Species Act of 1973, as amended (Act) (16 U.S.C. 1531 *et seq.*), requires that we make a finding on whether a petition to list, delist, or reclassify a species presents substantial scientific or commercial information indicating that the petitioned action may be warranted. We are to base this finding on all information available to us at the time we make the finding. To the maximum extent practicable, we must make this finding within 90 days of receiving the petition and publish a notice of the finding promptly in the **Federal Register**. Our standard for substantial information with regard to a 90-day petition finding is "that amount of information that would lead a reasonable person to believe that the measure proposed in the petition may be warranted" (50 CFR 424.14(b)). If our finding is that substantial information was presented, we are required to promptly begin a review of the status of the species, if one has not already been initiated under our internal candidate assessment process. In order to determine if substantial information is available, the Service reviewed the subject petition, literature cited in the petition, information provided by recognized experts or agencies cited in
