(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of Information Collection:* Extension of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Survey of Infectious Disease in Correctional Facilities.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: none. National Institute of Justice (NIJ), Office of Justice Programs (OJP), Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit, Not-for-profit institutions, and the Federal Government. The Survey of Infectious Diseases in Correctional Facilities addresses the need for information about disease prevention, education, diagnosis, and treatment in prisons and jails. Sponsored by the NIJ

and the Centers for Disease Control and Prevention (CDC), the survey is designed to identify and analyze practices for addressing infectious diseases in adult facilities nationwide, as well as to gather aggregate data on sexually transmitted diseases (STDs) and tuberculosis (TB) test results. The survey includes a section on Hepatitis A, B and C. Data and information collected from this section will serve as baseline documentation for levels of adherence to forthcoming CDC guidelines on the prevention and treatment of hepatitis in correctional facilities.

Survey respondents are the 50 state correctional systems, the Federal Bureau of Prisons, the 50 largest city and country jail systems, the five largest tribal facilities, five city and county jails in smaller cities, and ten regional or rural county jails. This survey will be conducted by mail, with extensive telephone follow-up. A validation survey using subset instruments will be conducted with 50 prison facilities from 10 states and the Federal system. NIJ, CDC, and Abt Associates Inc. have worked together closely to develop the survey instrument to address emerging issues and practices, including new therapies and a section that focuses on the technological capabilities with Departments of Correction and the largest city and county jails. The data will be presented in a series of short disease and activity-specific reports (e.g., "HIV", "Discharge Planning Policies").

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* There are approximately 171 respondents which include 121 correctional institutions (prisons or jails) for the full survey, and 50 correctional institutions for the validation survey. The estimated time to complete the full survey is 4 hours and approximately 1 hour to complete the validation survey.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are approximately 534 annual burden hours associated with this collection.
