BILLING CODE 4210-29-M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Privacy Act of 1974, as Amended; Amendment of an Existing System of Records

AGENCY: Department of the Interior.

ACTION: Proposed amendment of an existing system of records.

SUMMARY: The Department of the Interior (DOI) is issuing public notice of its intent to amend a Privacy Act (PA) system of records in its inventory of records systems subject to the Privacy Act of 1974 (5 U.S.C. 552a). Interior/OS-01, "Computerized ID Security System" is being amended because DOI, Office of the Secretary, National Business Center, is replacing its current computerized access control system with a new "Smart Card" access control system. The current access control system is used to maintain access control to the Main Interior complex in Washington, DC. The new access control system will be used to maintain access control to all DOI facilities that have installed smart card access control systems. In addition to the information collected under the current access control system, the new access control system will record the entry/exit locations, access status, and personal identification numbers (PIN) of the smart card holder. Two new routine uses have been added to the system of records to allow DOI to disclose information to both: (1) other agencies that have similar smart card access control systems, when a DOI smart card holder desires access to that agency's facility; and (2) to an official of another Federal agency to provide information needed by that agency in the performance of official duties related to reconciling or reconstructing data files, in support of the functions for which the records were collected or maintained. Additionally, the text and/or scope of the five original routine uses have been modified to varying degrees. The data will be stored on a server located in the Main Interior building in Washington, DC, with a backup server located in the DOI National Business

Center facility in Denver, CO. Data exchanged between the servers and between the servers and the client PCs will be encrypted.

EFFECTIVE DATE: 5 U.S.C. 552a(e)(11) requires that the public be provided a 30-day period in which to comment on the agency's intended use of the information in the system of records. The Office of Management and Budget, in its Circular A-130, requires an additional 10-day period (for a total of 40 days) in which to make these comments. Any persons interested in commenting on this proposed amendment may do so by submitting comments in writing to the Office of the Secretary Privacy Act Officer, Sue Ellen Sloca, U.S. Department of the Interior, Mail Stop (MS)-1414-Main Interior Building (MIB), 1849 C Street, NW, Washington, DC 20240, or by e-mail to Sue_Ellen_Sloca@nbc.gov. Comments received within 40 days of publication in the **Federal Register** will be considered. The system will be effective as proposed at the end of the comment period unless comments are received which would require a contrary determination. The Department will publish a revised notice if changes are made based upon a review of comments received.
