

and products containing same by reason of infringement of claims 1–12 of U.S. Patent No. 5,464,709. The complaint further alleges that an industry in the United States exists as required by subsection (a)(2) of section 337. The Commission named as respondents 26 companies located in the United States, China, Indonesia, and Japan.

On November 26, 2003, complainants and one respondent, Monster Cable Products, Inc. (“Monster Cable”), jointly moved for termination of the investigation as to Monster Cable on the basis of a settlement agreement and a proposed consent order. On December 8, 2003, the Commission investigative attorney filed a response supporting the motion for termination. No party opposed the motion for termination. The ALJ issued the subject ID on December 18, 2003, terminating the investigation as to Monster Cable on the basis of the consent order.

No party petitioned for review of the ID pursuant to 19 CFR 210.43(a), and the Commission found no basis for ordering a review on its own initiative pursuant to 19 CFR 210.44. The ID thus became the determination of the Commission pursuant to 19 CFR 210.42(h)(3). The Commission notes that the reference to “FDK” on line 16, page 4 of the ID should be “Monster.”

This action is taken under the authority of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and Commission rule 210.42, 19 CFR 210.42.

Issued: January 13, 2004.

By order of the Commission.

Marilyn R. Abbott,

Secretary to the Commission.

Custom Tool and Design, Inc., Erie, PA; Notice of Revised Determination on Reconsideration

On November 21, 2003, the Department issued a Notice of Affirmative Determination Regarding Application for Reconsideration,

applicable to workers of the subject firm. The notice was published in the **Federal Register** on December 19, 2003 (68 FR 70837-70838).

On September 23, 2003, the initial petition investigation for workers of Custom Tool and Design, Inc., Erie, Pennsylvania resulted in a negative decision because criteria I.B. and II.B. of the worker group eligibility requirements of the Trade Act of 1974, as amended, were not met. Sales and production of plastic injection molds increased in January through July 2003 when compared to the same time period of the previous year.

Officials of Custom Tool and Design, Inc. provided new information to the Department showing that sales and production of plastic injection molds declined in January through August 2003 over the corresponding period of 2002.

Subsequently, the Department conducted a survey of major customers of the subject firm regarding their purchases of plastic injection molds during 2001, 2002 and January through August 2003. Results of this survey revealed that major declining customer(s) of Custom Tool and Design, Inc. increased import purchases of plastic injection molds, while reducing purchases from the subject firm.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that increased imports of plastic injection molds like or directly competitive with those produced by Custom Tool and Design, Inc., Erie, Pennsylvania, contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm.

In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

All workers of Custom Tool and Design, Inc., Erie, Pennsylvania, who became totally or partially separated from employment on or after July 23, 2002, through two years from the date of certification, are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974.

Signed in Washington, DC, this 6th day of January, 2004.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.
