

response to the *Initiation Notice* or the *Preliminary Results* opposing this changed circumstances review or the decision to revoke the CVD order, in whole, we find that producers accounting for substantially all of the production of the domestic like product to which this order pertains, lack interest in the relief provided by the order. In accordance with sections 751(b), 751(d), and 782(h) of the Act and 19 CFR 351.216, the Department determines that there is a reasonable basis to believe that changed circumstances exist sufficient to warrant revocation of the order. Therefore, the Department is revoking the order on carbon and certain alloy steel wire rod from Canada, in whole, with regard to the products described above under the "Scope of the Order" section.

Instructions to Customs

In accordance with 19 CFR 351.222, the Department will instruct U.S. Customs and Border Protection ("CBP") to liquidate without regard to applicable countervailing duties, and refund any estimated countervailing duties collected on, all unliquidated entries of the merchandise subject to the order, as described above under the "Scope of the Order" section, entered, or withdrawn from warehouse, for consumption on or after February 8, 2002, *i.e.*, the publication date of the Department's preliminary determination (*see Preliminary Affirmative Countervailing Duty Determination: Carbon and Certain Alloy Steel Wire Rod from Canada*, 67 FR 5984). In accordance with section 778 of the Act, we will also instruct CBP to pay interest on such refunds with respect to the subject merchandise entered, or withdrawn from warehouse, for consumption on or after October 22, 2002, the date of publication in the **Federal Register** of the CVD order.

The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of these final results of review.

Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing this determination and notice in accordance with sections 751(b)(1) and 777(i)(1) of the Tariff Act and sections 351.216, 351.221, and 351.222 of the Department's regulations.

ACTION: Issuance of permit.

SUMMARY: Notice is hereby given that Northeast Fisheries Science Center, National Marine Fisheries Service, 166 Water Street, Woods Hole, MA 02543-1097 has been issued a permit to take loggerhead (*Caretta caretta*), leatherback (*Dermodochelys coriacea*), Kemp's ridley (*Lepidochelys kempii*), green (*Chelonia mydas*), and hawksbill (*Eretmodochelys imbricata*) sea turtles for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376;

Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298; phone (978)281-9200; fax (978)281-9371.

FOR FURTHER INFORMATION CONTACT:

Patrick Opay, (301)713-1401 or Sarah Wilkin, (301)713-2289.

SUPPLEMENTARY INFORMATION:

On October 14, 2003, notice was published in the **Federal Register** (68 FR 59163) that a request for a scientific research permit to take loggerhead, leatherback, Kemp's ridley, green, and hawksbill sea turtles had been submitted by the above-named organization. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and

exporting of endangered and threatened species (50 CFR parts 222-226).

The applicant will handle, measure, flipper tag, scan for Passive Integrated Transponder (PIT) tags, biopsy sample and photograph a total of 1,500 loggerhead, 50 green, 250 leatherback and 50 hawksbill sea turtles and handle, measure, flipper tag, scan for PIT tags and photograph a total of 50 Kemp's ridley sea turtles over the duration of the permit. Seventy-five of the loggerheads and 20 of the Kemp's ridleys will also be dip-netted. This research will be conducted on animals that have been already incidentally captured in commercial fisheries operating in state waters and the Exclusive Economic Zone in the Northwest Atlantic Ocean. The purpose of the research is to determine the size and composition of populations of sea turtles found in the commercial fishing areas of the Northwest Atlantic Ocean and to establish individual identities of turtles which will permit subsequent determination of growth rates, possible stock origins and movement patterns. The research will contribute to the understanding of the pelagic ecology of these species, permit more complete models of their population dynamics, and allow more reliable assessments of commercial fishery impacts.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: January 14, 2003.

Carrie W. Hubbard,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.
