DEPARTMENT OF THE INTERIOR**Bureau of Reclamation****Environmental Water Account, San Francisco Bay/Sacramento-San Joaquin Delta, California**

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of Availability of the Final Environmental Impact Statement/Environmental Impact Report (EIS/EIR).

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA), the Bureau of Reclamation (Reclamation) and the California Department of Water Resources (DWR) have prepared a Final EIS/EIR for the Environmental Water Account (EWA).

The purpose of the EWA is to provide water for the protection and recovery of at-risk native fish species beyond the amount of water available from existing regulatory actions related to State Water Project/Central Valley Project operations.

The Notice of Availability of the Draft EIS/EIR was published in the **Federal Register** on Wednesday, July 16, 2003, (66 FR 42130). The written comment period on the Draft EIS/EIR ended Monday, September 15, 2003. The Final EIS/EIR contains responses to all comments received and changes made to the text of the Draft EIS/EIR as a result of those comments and any additional information received during the review period.

DATES: Reclamation will not make a decision on the proposed action until at least 30 days after release of the Final EIS/EIR. After the 30-day waiting period, Reclamation will complete a Record of Decision (ROD). The ROD will state the action that will be implemented and will discuss all factors leading to the decision.

ADDRESSES: A compact disc of the Final EIS/EIR may be requested from Ms. Sammie Cervantes, Bureau of Reclamation, 2800 Cottage Way, Sacramento, CA 95825, or by calling 916–978–5104, TDD 916–978–5608, or by e-mail at scervantes@mp.usbr.gov.

The Final EIS/EIR is accessible at the following Web sites: <http://www.mp.usbr.gov> or <http://www.dwr.water.ca.gov>.

See Supplemental Information section for locations where a compact disc of the Final EIS/EIR is available for review.

FOR FURTHER INFORMATION CONTACT: Ms. Sammie Cervantes, Bureau of Reclamation, at 916–978–5104, TDD 916–978–5608, or by e-mail at scervantes@mp.usbr.gov; or Ms. Delores Brown, DWR, at 916–227–2407, or by e-mail at delores@water.ca.gov.

SUPPLEMENTARY INFORMATION: The EWA is a cooperative management program, the purpose of which is to provide protection to the at-risk native fish species of the Bay-Delta estuary through environmentally beneficial changes in SWP and CVP operations at no uncompensated water cost to the projects' water users. This approach to fish protection requires the acquisition of alternative sources of water supply, called EWA assets, that allow export pumping in the Sacramento-San Joaquin Delta to be modified to provide fishery benefits while also replacing the regular project water supply that otherwise might be interrupted or lost because of the changes to project operations. EWA assets may also be used to augment streamflows and Delta outflow.

Public workshops to discuss the purpose and content of the Draft EIS/EIR were held on the following dates and locations: Wednesday, July 16, 2003, in San Diego, CA; Monday, July 21, 2003, in Red Bluff, CA; Tuesday, July 22, 2003, in Fresno, CA; Wednesday, July 23, 2003, in Tracy, CA; and Tuesday, July 29, 2003, in Sacramento, CA. Public hearings were held on Monday, August 25, 2003, in Sacramento, CA; Tuesday, August 26, 2003, in Red Bluff, CA; and Thursday, August 28, 2003, in Fresno, CA.

A compact disc of the Final EIS/EIR is available for review at the following locations:

Platte River Recovery Implementation Program

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability of the draft environmental impact statement.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) of 1969 (as amended), the Bureau of Reclamation (Reclamation) and the U.S. Fish and Wildlife Service (Service) as lead agencies have prepared a draft programmatic environmental impact statement (DEIS) for the Platte River Recovery Implementation Program (Program). This DEIS also serves as the Biological Assessment necessary for consultation under Section 7 of the Endangered Species Act (ESA). In 1997, the States of Nebraska, Wyoming, and Colorado and the U.S. Department of the Interior (Interior) signed a *Cooperative Agreement for Platte River Research and Other Efforts Relating to Endangered Species Habitats Along the Central Platte River, Nebraska (Cooperative Agreement)*. In this document, the signatories agreed to pursue a basinwide, cooperative approach to improve and maintain habitat for four threatened and endangered species—the whooping crane, interior least tern, piping plover, and pallid sturgeon

(target species) in the Platte River in Nebraska.

DATES: A 60-day public review period commences with the publication of this notice, or until April 2, whichever comes later. Public hearings on the DEIS will be held during the month of March. Times and locations will be announced in the **Federal Register** and local media.

ADDRESSES: Written comments on, or requests for copies of, the DEIS should be addressed to Platte River EIS Office (PL-100), PO Box 25007, Denver, Colorado, 80225-0007; telephone: (303) 445-2096, or by sending an email request to platte@prs.usbr.gov. The document is available on the Internet at <http://www.platteriver.org>. Copies of the DEIS area also available for public inspection at the locations listed under the **SUPPLEMENTARY INFORMATION** section.

SUPPLEMENTARY INFORMATION:

Reclamation and the Service have prepared this DEIS to analyze the impacts of the First Increment (13 years) of a proposed Program to benefit the target species and their habitat in the Platte River Basin and to provide compliance with the ESA for certain historic and future water uses in each State. The habitat objectives of the proposed Program include: improving flows in the Central Platte River through water re-regulation and conservation/supply projects; and protecting, restoring, and maintaining at least 10,000 acres of habitat in the Central Platte River area between Lexington and Chapman, Nebraska. The DEIS analyzes the impacts of four alternatives to implement the Program.

The programmatic DEIS focuses on impacts that the Program may have on hydrology, water quality, land, target species and their habitat, other species, hydropower, recreation, economics, and social and cultural resources. Subsequent NEPA and ESA documents required for implementation of specific Program actions will be tiered off of this document.
