

12,500 pounds or more, to, from, within, or overflying the United States that are not otherwise regulated under title 49 of the Code of Federal Regulations (49 CFR) part 1546. TSA issued the ACISP pursuant to 49 CFR 1550.7, to respond to vulnerabilities in air cargo security.

The term "overflying" includes any flight departing from an airport or other location outside the United States, its territories or possessions, which transits the territorial airspace of the United States enroute to an airport or other location outside the United States, its territories, or possessions. The territorial airspace of the United States includes the airspace over the United States, its territories and possessions, and the airspace overlying the territorial waters between the U.S. coast and 12 nautical miles from the U.S. coast.

The U.S. Intelligence Community continues to receive and evaluate a high volume of reporting indicating possible threats against U.S. interests. This reporting, combined with recent terrorist attacks, has created an atmosphere of concern. While the ability to conduct multiple, near simultaneous attacks against several targets is not new for such terrorist groups as Al-Qaeda, the manner in which these attacks are being conducted indicates refined capabilities and sophisticated tactics. The Department of Homeland Security remains concerned about Al-Qaeda's continued interest in aviation, including using cargo jets to carry out attacks on critical infrastructure. In recognition of this threat, TSA has made a determination that these circumstances require immediate action to ensure safety in air transportation.

The ACISP includes requirements that the foreign air carrier must conduct random inspections of certain air cargo, verify the identities of persons with access to these flights, ensure the security of the aircraft, and have in place procedures to respond to certain threats. Affected foreign air carriers must implement the procedures set forth in the ACISP which is available by contacting Mr. Robert Baker at the Transportation Security Administration: telephone (571) 227-3506, facsimile (571) 227-1947, e-mail Robert.Baker2@dhs.gov. The ACISP is an interim measure to respond to the concerns set forth above.

Issued in Arlington, Virginia, January 20, 2004.

David M. Stone,

Acting Administrator.

BILLING CODE 4910-62-P

DEPARTMENT OF THE INTERIOR

Geological Survey

National Cooperative Geologic Mapping Program (NCGMP) Advisory Committee

AGENCY: U.S. Geological Survey.

ACTION: Notice of meeting.

SUMMARY: Pursuant to Pub. L. 108-148, the NCGMP Advisory Committee will meet in Room 7000 A of the Main Interior Building, 1849 C Street, NW., Washington, DC. The Advisory Committee, composed of scientists from Federal Agencies, State Agencies, academic institutions, and private companies, will advise the Director of the U.S. Geological Survey on planning and implementation of the geologic mapping program.

Topics to be reviewed and discussed by the Advisory Committee include the:

- Progress of the NCGMP towards fulfilling the purposes of the National Geologic Mapping Act of 1992.
- Updates on the Federal, State, and educational components of the NCGMP.
- Strategic Goals.

DATES: February 10-11, commencing at 9 a.m. on February 10 and adjourning by 5 p.m. on February 11.

FOR FURTHER INFORMATION CONTACT: Laurel Bybell, U.S. Geological Survey, 908 National Center, Reston, Virginia 20192 (703) 648-5281.

SUPPLEMENTARY INFORMATION: Meetings of the National Cooperative Geologic Mapping Program Advisory Committee are open to the Public.

P. Patrick Leahy,

Associate Director for Geology, U.S. Geological Survey.

BILLING CODE 4310-Y7-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR-930-6333 PH COMP, HAG 04-0075]

Notice of Availability of the Supplemental Environmental Impact Statement for Management of Port-Orford-Cedar in Southwest Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability.

SUMMARY: The Forest Service (FS) and Bureau of Land Management (BLM) have prepared a Final Supplemental Environmental Impact Statement (FSEIS) for management of Port-Orford-cedar in southwest Oregon. The

Agencies are supplementing the analyses contained in the Final EISs for the Resource Management Plans for the Coos Bay, Medford, and Roseburg BLM Districts (1995) and the Land and Resource Management Plan for the Siskiyou National Forest (1988), generally federally managed forestlands in southwest Oregon.

The FSEIS is now available to the public. Requests to receive copies of the FSEIS should be sent to the address listed below. Alternately, the FSEIS is available on the Internet at http://www.or.blm.gov/planning/Port-Orford-cedar_SEIS/. Copies are also available for inspection at FS and BLM offices in southwestern Oregon and northwestern California, public libraries within the range of the cedar, and in the BLM Oregon State Office reading room at 333 SW. First Avenue, Portland, Oregon. All submissions from organizations or businesses will be made available for public inspection in their entirety. Individuals may request confidentiality with respect to their name, address, and phone number. If you wish to have your name or street withheld from public review, or from disclosure under the Freedom of Information Act, the first line of the comment should start with the words "CONFIDENTIALITY REQUESTED" in uppercase letters in order for BLM to comply with your request. Such request will be honored to the extent allowed by law. Comment contents will not be kept confidential.

DATES: Publication of the Environmental Protection Agency (EPA) Notice of Availability and filing of the FSEIS in the **Federal Register** initiates a 30-day Protest Period for the Bureau of Land Management (see 43 CFR § 1610.5-02). The EPA Notice of Availability appeared in the **Federal Register** on January 23, 2004. An appeal period for the Forest Service will be initiated with the signing of the Record of Decision.

ADDRESSES: To request copies of the document, or to add your name to the mailing list, contact: Port-Orford-Cedar SEIS Team, P.O. Box 2965, Portland, Oregon 97208; or e-mail to ORPOCEIS@or.blm.gov; or FAX to (503) 326-2396 and specify POC SEIS Team.

FOR FURTHER INFORMATION CONTACT: Ken Denton, SEIS Team Leader, P.O. Box 2965, Portland, Oregon 97208; telephone (503) 326-2368.

SUPPLEMENTARY INFORMATION: Port-Orford-cedar is killed by an exotic root disease (*Phytophthora lateralis*) that is linked, at least in part, to transport of spore-infested soil by human and other vectors. Waterborne spores then readily spread the disease down slope and downstream.
