SUPPLEMENTARY INFORMATION:

Annual State Administrators Grantee Conference

The annual grantee conference for the State FVPSA Administrators is a training and technical assistance activity. Attendance at these activities is mandatory. Family Violence Prevention and Services Act (FVPSA) funds may be used to support attendance and participation. A subsequent Program Instruction will advise the State FVPSA administrators of the date, time, and location of their grantee conference.

Client Confidentiality

FVPSA programs must establish or implement policies and protocols for maintaining the safety and confidentiality of the adult victims and their children of domestic violence, sexual assault, and stalking. It is essential that the confidentiality of individuals receiving FVPSA services be protected. Consequently, when providing statistical data on program

activities, individual identifiers of client records will not be used (section 303(a)(2)(E)).

Stop Family Violence Postal Stamp

The U.S. Postal Service was directed by the "Stamp Out Domestic Violence Act of 2001" (the Act), Public Law 107-67, to make available a "semipostal" stamp to provide funding for domestic violence programs. Funds raised in connection with sales of the stamp, less reasonable costs, will be transferred to the U.S. Department of Health and Human Services in accordance with the Act for support of services to children and youth affected by domestic violence. It is projected that initial revenues will be received during the third quarter of FY 2004. Subsequent to the receipt of the stamp proceeds, a program announcement will be issued providing guidance and information on the process and requirements for awards to programs providing services to children and youth.

The Importance of Coordination of Services

The impacts of family and intimate violence include physical injury and death of primary or secondary victims, psychological trauma, isolation from family and friends, harm to children witnessing or experiencing violence in homes in which the violence occurs, increased fear, reduced mobility and employability, homelessness, substance abuse, and a host of other health and related mental health consequences.

Coordination and collaboration among the police, prosecutors, the courts, victim services providers, child welfare and family preservation services, and medical and mental health service providers is needed to provide more responsive and effective services to victims of domestic violence and their families. It is essential that all interested parties are involved in the design and improvement of intervention and prevention activities.

To help bring about a more effective response to the problem of domestic violence, the Department of Health and Human Services (HHS) urges the designated State agencies receiving funds under this grant announcement to coordinate activities funded under this grant with other new and existing resources for the prevention of family and intimate violence and related issues.
