third party health plans and VA's health care clearinghouse in order to electronically file claims for medical care or services; and (7) report analytical and statistical data related to management practices, reimbursement practices of insurance carriers, and billing and collection data.

VA is renumbering the system of records to 114VA16 to reflect organizational changes. System Location is amended to include the maintenance of records at contractor facilities.

VA is amending the Categories of Individuals Covered by the System by deleting the phrase "International Government responsible for" in number seven (7). Pensioned members of allied forces (Allied Beneficiaries) who are provided health care services under Title 38, U.S.C. Chapter 1 are covered by the system.

VA is amending the Categories of Records in the System as described below:

- Number two (2) is amended to replace "Insurance information specific to the veteran and/or spouse" with "Insurance company information specific to coverage of the veteran and/or spouse."

- Number four (4) is amended to replace "Charges claimed to an insurance company based on treatment/ services provided to the patient" with "Charges claimed to a third party payer, including insurance companies, other Federal agencies, or foreign governments, based on treatment/ services provided to the patient."

The Routine Uses of Records Maintained in the System, including Categories of Users and the Purposes of Such Uses are amended as described below.

- Routine use eleven (11) is amended to replace "in order for the contractor to perform the services of the contract or agreement" with "in order for the contractor or sub-contractor to perform the services of the contract or agreement."

- A new routine use fifteen (15) has been added. Identifying information such as name, address, social security number and other information as is reasonably necessary to identify such individual may be disclosed to the National Practitioner Data Bank at the time of hiring and/or clinical privileging/re-privileging of health care practitioners, and at other times as deemed necessary by VA, in order for VA to obtain information relevant to a Department decision concerning the hiring, privileging/re-privileging, retention or termination of the applicant or employee.

- A new routine use sixteen (16) has been added. Disclosure of individually-identifiable health information, including billing information for the payment of care, may be made by appropriate VA personnel to the extent necessary and on a need-to-know basis consistent with good medical-ethical practices, to family members and/or the person(s) with whom the patient has a meaningful relationship.

To the extent that records contained in the system include information protected by 45 CFR parts 160 and 164, *i.e.*, individually-identifiable health information, and 38 U.S.C. 7332; *i.e.*, medical treatment information related to drug abuse, alcoholism or alcohol abuse, sickle cell anemia or infection with the human immunodeficiency virus, that information cannot be disclosed under a routine use unless there is also specific statutory authority in 38 U.S.C. 7332 and regulatory authority in 45 CFR parts 160 and 164 permitting disclosure.

The Privacy Act permits VA to disclose information about individuals without their consent for a routine use when the information will be used for a purpose that is compatible with the purpose for which we collected the information. In all of the routine use disclosures described above, the recipient of the information will use the information in connection with a matter relating to one of VA's programs, will use the information to provide a benefit to VA, or disclosure is required by law.

Under section 264, Subtitle F of Title II of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) Public Law 104-191, 100 Stat. 1936, 2033-34 (1996), the United States Department of Health and Human Services (HHS) published a final rule, as amended, establishing Standards for

Privacy of Individually-Identifiable Health Information, 45 CFR parts 160 and 164. VHA may not disclose individually-identifiable health information (as defined in HIPAA and the Privacy Rule, 42 U.S.C. 1320(d)(6) and 45 CFR 164.501) pursuant to a routine use unless either: (a) The disclosure is required by law, or (b) the disclosure is also permitted or required by the HHS Privacy Rule. The disclosures of individually-identifiable health information contemplated in the routine uses published in this amended system of records notice are permitted under the Privacy Rule or required by law. However, to also have authority to make such disclosures under the Privacy Act, VA must publish these routine uses. Consequently, VA is publishing these routine uses and is adding a preliminary paragraph to the routine uses portion of the system of records notice stating that any disclosure pursuant to the routine uses in this system of records notice must be either required by law or permitted by the Privacy Rule before VHA may disclose the covered information.

System Manager(s) and Address is amended to reflect organizational changes.

The Report of Intent to Publish and an advance copy of the system notice have been sent to the appropriate Congressional committees and to the Office of Management and Budget (OMB) as required by 5 U.S.C. 552a(r) (Privacy Act) and guidelines issued by OMB (65 FR 77677), December 12, 2000.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on paper or electronic media.

RETRIEVABILITY:

Records are retrieved by name, social security number or other assigned identifier of the individuals on whom they are maintained, or by specific bill number assigned to the claim of the individuals on whom they are maintained.

SAFEGUARDS:

1. Access to VA working and storage areas is restricted to VA employees on a "need-to-know" basis. Strict control measures are enforced to ensure that disclosure to these individuals is also based on this same principle. Generally, VA file areas are locked after normal duty hours, and the facilities are protected from outside access by the Federal Protective Service or other security personnel.

2. Information in VistA may only be accessed by authorized VA personnel. Access to file information is controlled at two levels. The systems recognize authorized personnel by series of individually unique passwords/codes as a part of each data message, and personnel are limited to only that

information in the file, which is needed in the performance of their official duties. Information that is downloaded from VistA and maintained on personal computers is afforded similar storage and access protections as the data that is maintained in the original files.

Access to information stored on automated storage media at other VA locations is controlled by individually unique passwords/codes. Access by Office of Inspector General (OIG) staff conducting an audit, investigation, or inspection at the health care facility, or an OIG office location remote from the health care facility, is controlled in the same manner.

3. Information downloaded from VistA and maintained by the OIG headquarters and Field Offices on automated storage media is secured in storage areas for facilities to which only OIG staff have access. Paper documents are similarly secured. Access to paper documents and information on automated storage media is limited to OIG employees who have a need for the information in the performance of their official duties. Access to information stored on automated storage media is controlled by individually unique passwords/codes.

4. Access to the VA Austin Automation Center (AAC) is generally restricted to AAC employees, custodial personnel, Federal Protective Service and other security personnel. Access to computer rooms is restricted to authorized operational personnel through electronic locking devices. All other persons gaining access to computer rooms are escorted. Information stored in the AAC databases may be accessed.

5. Access to records maintained at the VA Allocation Resource Center (ARC)

and the VISN Offices is restricted to VA employees who have a need for the information in the performance of their official duties. Access to information stored in electronic format is controlled by individually unique passwords/codes. Records are maintained in manned rooms during working hours. The facilities are protected from outside access during non-working hours by the Federal Protective Service or other security personnel.

RETENTION AND DISPOSAL:

Paper records and information stored on electronic storage media are maintained and disposed of in accordance with records disposition authority approved by the Archivist of the United States.

SYSTEM MANAGER(S) AND ADDRESS:

The official responsible for policies and procedures is the Chief Business Officer, Chief Business Office (16), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420. The local officials responsible for maintaining the system are the Director of the facility where the individual is or was associated.

NOTIFICATION PROCEDURE:

An individual who wishes to determine whether a record is being maintained in this system under his or her name or other personal identifier, or wants to determine the contents of such record, should submit a written request or apply in person to the last VA health care facility where care was rendered. Addresses of VA health care facilities may be found in VA Appendix 1 of the biennial publication of VA Privacy Act Issuances. All inquiries must reasonably identify the place and approximate date

that medical care was provided. Inquiries should include the patient's full name, social security number, insurance company information, policyholder and policy identification number as well as a return address.

RECORD ACCESS PROCEDURE:

Individuals seeking information regarding access to and contesting of records in this system may write, call or visit the VA facility location where they were treated.
