RIN 2060-AM01

# Protection of Stratospheric Ozone: Allocation of Essential Use Allowances for Calendar Year 2004

**AGENCY:** Environmental Protection

Agency (EPA). **ACTION:** Final rule.

**SUMMARY:** With this action, EPA is allocating essential use allowances for import and production of class I stratospheric ozone depleting

substances (ODSs) for calendar year 2004. Essential use allowances enable a person to obtain controlled class I ODSs as an exemption to the regulatory ban of production and import of these chemicals, which became effective on January 1, 1996. EPA allocates essential use allowances for exempted production or import of a specific quantity of class I ODS solely for the designated essential purpose. The allocations total 2077.91 metric tons of chlorofluorocarbons for use in metered dose inhalers. EPA is also allocating the remaining allowances for methyl chloroform (141.877 metric tons) to the U.S. Space Shuttle Program.

**DATES:** This final rule is effective January 28, 2004.

**ADDRESSES:** Materials related to this rulemaking are contained in EPA Air Docket OAR–2003–0202. The EPA Air Docket is located at EPA West Building,

Room B102, 1301 Constitution Avenue NW., Washington, DC 20460. The Air Docket is open from 8:30 a.m. until 4:30 p.m. Monday through Friday. Materials related to previous EPA actions on the essential use program are contained in EPA Air Docket No. A-93-39.
