DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WY-090-1220-MA]

Notice of Seasonal Closure of Public Lands to Motorized Vehicle Use

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of seasonal closure of certain public lands located in Lincoln County, Wyoming, to all types of motor vehicle use.

SUMMARY: Pursuant to 43 Code of Federal Regulations subpart 8364, the Bureau of Land Management (BLM) may issue an order to close the use of BLM

administered lands to the public to protect those lands and resources. The Kemmerer Resource Management Plan (RMP) Record of Decision (ROD), April 29, 1986, states that big game winter ranges may be closed to minimize stress to wintering animals.

After consulting with the Wyoming Game and Fish Department the BLM Kemmerer Field Manager has decided to close certain BLM-administered lands and travel ways including existing roads and two-track trails, to all types of motorized vehicle travel (*i.e.*, snowmobiles, all-terrain vehicles, any vehicle including trucks, sport utility vehicles and cars, motorcycles *etc.*). Winter range as identified in the Kemmerer RMP and as described below in the **SUPPLEMENTARY INFORMATION** section will be closed from January 1, 2004, through April 30, 2004.

This seasonal closure affects public lands located within the Raymond Mountain Wilderness Study Area (WSA), Slate Creek, Rock Creek, and Bridger Creek winter ranges. This action is necessary for the protection of crucial winter range habitat for elk, moose, antelope, and mule deer. Except for travel on highways or county roads, motorized vehicle travel within these areas will be allowed only by written authorization from the Kemmerer Field Manager. When performing official duties personnel of the BLM, Wyoming Game and Fish Department, U.S. Department of Agriculture-APHIS & Forest Service, U.S. Fish & Wildlife Service, and Lincoln and Uinta County Sheriff Offices are exempt from this closure.

SUPPLEMENTARY INFORMATION: The BLM Kemmerer Field Office is responsible for management of crucial winter range habitat located on public lands within Lincoln County. The Kemmerer RMP identifies areas of crucial winter range and the ROD states that seasonal closures for motorized vehicles may be used to protect big game winter range. Closures will vary depending on conditions and are to be implemented in coordination with the Wyoming Game and Fish Department (Kemmerer RMP, pages 25 and 27). The Raymond Mountain WSA, Slate Creek, Rock Creek, and Bridger Creek areas are crucial wintering ranges for elk, moose, antelope, and mule deer. Because of the effects of 4 years of exceptional drought and the health of wintering deer, moose and elk, the BLM has decided to implement a seasonal closure to protect the winter range from further degradation. Low forage production associated with the drought has caused animals to go into winter in very poor
