Proposed Revision of VOR Federal Airway V-537

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking, (NPRM).

SUMMARY: This action proposes to modify Very High Frequency Omnidirectional Range (VOR) Federal airway V-537 by changing the origination point of the airway from the Vero Beach, FL, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC) to the Palm Beach, FL, VORTAC. The proposed modification would extend V-537 by incorporating a route segment that air traffic control (ATC) frequently assigns to aircraft arriving the Palm Beach, FL, terminal area. The proposed change would enhance the management of aircraft in the Palm Beach, FL, area.

DATES: Comments must be received on or before March 19, 2004.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. The Proposal

The FAA is proposing an amendment to title 14, Code of Federal Regulations (14 CFR) part 71 (part 71) to modify Federal airway V-537, by changing the origination point of the airway from the Vero Beach VORTAC to the Palm Beach VORTAC. The revision would incorporate the airway routing that is currently used by ATC when directing aircraft to Palm Beach, FL. Currently, Miami Air Route Traffic Control Center issues a clearance to aircraft destined for the Palm Beach terminal area by directing aircraft to proceed via the Vero Beach VORTAC, then along V-295 to STOOP intersection, then via V-492 to the Palm Beach VORTAC. The proposed modification would incorporate this routing as an extension to V-537. Extending V-537 as described above would significantly reduce pilot-controller communications, alleviate radio frequency congestion, reduce the potential for pilot readback errors, and enhance the management of aircraft operations in the Vero Beach-Palm Beach area.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airway listed in this document would be published subsequently in the order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory

evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
