

guarantees, insurance etc.). Part 52 contains the texts of solicitation provisions and contract clauses. These regulations implement a statutory requirement for information to be provided by Federal contractors relating to payment bonds furnished under construction contracts which are subject to the Miller Act (40 U.S.C. 270a-270d). This collection requirement is mandated by section 806 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Pub. L. 102-190), as amended by section 2091 of the Federal Acquisition Streamlining Act of 1994 (Pub. L. 103-335). The clause at 52.228-12, Prospective Subcontractor Requests for Bonds, implements section 806(a)(3) of Public Law 102-190, as amended, which specifies that, upon the request of a prospective subcontractor or supplier offering to furnish labor or material for the performance of a construction contract for which a payment bond has been furnished to the United States pursuant to the Miller Act, the contractor shall promptly provide a copy of such payment bond to the requestor.

In conjunction with performance bonds, payment bonds are used in Government construction contracts to secure fulfillment of the contractor's obligations under the contract and to assure that the contractor makes all payments, as required by law, to persons furnishing labor or material in performance of the contract. This regulation provides prospective subcontractors and suppliers a copy of the payment bond furnished by the contractor to the Government for the performance of a Federal construction contract subject to the Miller Act. It is expected that prospective subcontractors and suppliers will use this information to determine whether to contract with that particular prime contractor. This information has been and will continue to be available from the Government. The requirement for contractors to provide a copy of the payment bond upon request to any prospective subcontractor or supplier under the Federal construction contract is contained in section 806(a)(3) of Public Law 102-190, as amended by sections 2091 and 8105 of Public Law 103-355.

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee meeting.

SUMMARY: The Defense Science Board Task Force on Integrated Fire Support in the Battlespace will tentatively meet in closed session on April 21-22, 2004, location to be determined. The Task Force will apply the methodology developed in the 2001 Precision Targeting Summer Study to broadly develop the system of systems required to provide truly integrated fire support.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, the Defense Science Board Task Force will assess: The adequacy of current and proposed munitions with respect to speed, accuracy, lethality, cost, *etc.*, to meet the spectrum of threats; Intelligence Surveillance and Reconnaissance (ISR) techniques and mechanisms to meet the needs of tactical and operational battlefield forces; the adequacy of battlefield command and control and integration techniques for tactical, operational, and strategic forces operating on the battlefield; the current impediments to a fully integrated Air, Land and Sea fire support; and the need for predictive engagement tools and derived intelligence products to guide the battlefield commander in the use of forces to shape the outcome to the desired effect.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. II), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that,

accordingly, the meeting will be closed to the public.
