

(b) Resources available for supporting the non-Federal party contributions described; and

(c) Technical expertise/understanding of Maritime Domain Awareness, maritime common operational picture, USCG port operations, and industry best practices in situational display technologies.

This is a technology transfer/development effort. So far, the Coast Guard has no forecast to procure the technology. Proposals should clearly discuss how the concepts and technologies, *e.g.*, for two-dimensional, GIS-based display of maritime system risks and organizational readiness, could improve existing USCG capabilities and aid the USCG in visualizing its future "world of work."

Special consideration will be given to small business firms/consortia, and preference will be given to business units located in the U.S. which agree that products embodying inventions made under the CRADA or produced through the use of such inventions will be manufactured substantially in the U.S.

Dated: January 29, 2004.

F.A. Dutch,

Capt USCG, Commanding Officer, R&D Center.

Revisions to the October 2003 Notice

On October 16, 2003, the Coast Guard published a notice in the **Federal Register** (68 FR 59627) announcing the PREP triennial exercise schedule for 2004, 2005, and 2006. We are making several revisions to the triennial exercise schedule in that notice based on internal agency input. A summary of the changes follows—

For *Government-Led Area Exercises for Calendar Year 2004*, we changed

Guam from 1st to 4th Quarter, changed Prince William Sound from 4th to 3rd Quarter, and added EPA Region I to 4th Quarter. For *Industry-Led Area Exercises for Calendar Year 2004*, we changed Maryland Coastal from 2nd to 4th Quarter, and added a footnote for

Charleston, SC, and Duluth-Superior to indicate "credit for response in lieu of exercise."

This notice announces the revised triennial schedule of Area exercises. If a company wants to volunteer for an Area exercise, a company representative

may call either the Coast Guard or EPA On-Scene Coordinator (OSC) where the exercise is scheduled.
